INSPIRED FISHING

WELCOME

We are just like you! We're passionate carp fishermen who live and breathe for the next hysterical screech of the bite alarm. We can hear it call out to us in our sleep - and it's all we can ever think about when we're awake. Carp fishing is an ever-present urge, a pressing impulse - a call that can't be ignored! It's something that defines us but at the same time is difficult to fully grasp and explain. We're sure you know exactly what we're talking about!

We also happen to make carp fishing tackle. And being the fanatical and borderline-obsessed perfectionists we are, we always aim at making the best thinkable gear - for ourselves and for you! We're all in this together, and that's why we're proud to present our 2016 range - a product range that is more comprehensive, innovative, durable, thoroughly tested and high-performance than ever before. All in honour of the love of carp fishing!

We've outdone ourselves so you can outdo yourself when you're out on those alluring and challenging carp venues across Europe in 2016. Stay passionate, be inspired, and keep fishing!

See you out there!

ENRICO PARMEGGIANI

QUASAR

Probably the best carp rods we have ever produced. C40X Carbon reel seat with Fuji hood and Fuji KWAG "tangle free" guides.

We have used the highest grade of 46 Tons HM Japanese carbon and a unique manufacturing technology that enables us to reduce the blank diameters and to keep an extremely fast-progressive action. Only top quality components have been used : C40X Carbon reel seat with Fuji hood and Fuji KWAG "tangle free" guides. The butt handle is made in a slightly conical shape that provides ultimate comfort and grip even when casting to extreme distance. This is truly a distance machine, but you will be surprised by the progressive action, the response and the lightweight of these rods. A real carp rod for specialists.

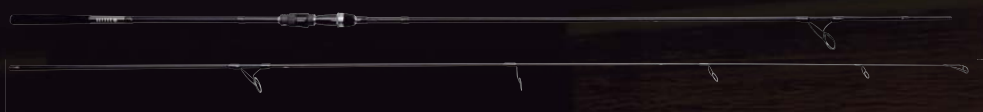

Fuji KWAG
tangle free
guides

FEATURES

- C40X Carbon reel seat with Fuji hood
- Fuji KWAG tangle free guides
- 46 Tons HM carbon blank
- Fast-Progressive action
- Extreme casting performance
- Carbon threaded eyes

FAST WATER LIMITED EDITION

The best river fishing carp rods available on the market, featuring unique details that will be immediately appreciated by specimen carp anglers.

Europe is crossed by big rivers all over, and more and more carp anglers are focusing on this type of environment that can offer true challenges with undiscovered waters containing big and wild carp. Here at Prologic, we have vast experience with this specific style of carp fishing as many of us have been fishing in big European rivers for more than 10 years now, and because of that we've been able to develop a range of rods that can deal with any kind of situation. Furthermore, they are the best river fishing carp rods available on the market, featuring unique details that will be immediately appreciated by specimen carp anglers. The action is perfect to fight strong fish at medium short range, as is usually the case in river fishing and heavy leads casting.

FEATURES

- 40T High Modulus Carbon Blank
- Full 3K Carbon reinforcement in stress point
- ALPS reel seat
- Heavy Duty SIC guides
- Parabolic Progressive Action
- Reinforced Guide Wrapping

Item No	Length	Test Curve	Sections	Transport Length	Weight
45676	9'6" 293cm	3.5lbs	2	149cm	278g
45677	12' 360cm	3.5lbs	2	188cm	386g
45678	12'6" 384cm	4.0lbs	2	195.5cm	424g

Handle length is more compact for ease of use and utilises over-sized guides to prevent clogging by weed and debris carried by the current. FAST WATER rods are available in three versions, 9'6" 3.5lbs which is perfect for boat fishing and to fish from extremely tight swims, and two versions to suit any possible situation when fishing from the shore : 12' 3.5lbs and 12'6" 4.0lbs.

Click for video

C3 RAS

C3 RAS Evolution

NEW C3 RAS

Distance, accuracy and sensitivity.

These are the three key features of our new C3 RAS carp rods, all combined with top quality components, a Fuji Gold DPS reel seat and ultra-reliable SIC guides. The totally new C3 RAS is made from a 30 Ton High Modulus carbon blank with low resins and a really unique taper that gives this rod a very light weight and very fast response when casting, making it possible to reach extreme distances with a relatively light lead. The Rods feature a fast-parabolic action.

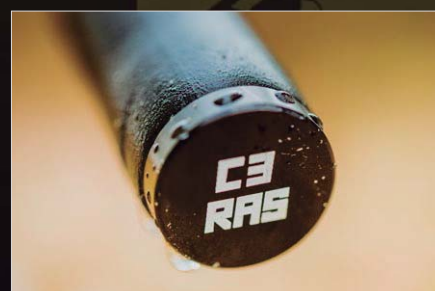

The Evolution version is made for the lovers of the "old style" carp rods, featuring a more parabolic action and 8+1 guides, the perfect solution for the anglers who want to enjoy the top fight with any carp.

Click for video

FEATURES

- 30 TON HM Blank
- Fuji DPS Gold reels seat
- SIC guides
- Fast-Parabolic action

The Prologic C3 RAS rod is exactly the kind of rod I wanted: A sleek, elegant and lightweight rod that is fast and powerful when I need to fish at long distances. It feels great and it is extremely precise when casting. Generally, casting rods are stiffer than conventional rods, and using a small hook often means losing fish during the fight. However, this is not the case with the C3 RAS due to its parabolic action. Considering that I mostly fish on wild waters full of snags, this rod is perfect. It helps me fight the fish with finesse, but it also provides brute force when needed.

Mihovil Vudrag

Item No	Length	Test Curve	Sections	Transport Length	Weight
49821	10'	3.00lbs	2	155cm	234g
49822	12'	2.75lbs	2	188cm	281g

49826	13'	3.50lbs	2	204cm	405g
49827	Evolution 12'	3.25lbs	2	188cm	314g

C3 RAS Evolutive rods.

Damn. What a rod this is. If you want a strong rod but love old school action then you certainly have to get grip on our new rods. Even in 3,25 or 3,50 lbs they will still bend round while playing fish under the tip and closeby. Parabolic to the max! Cast likes a cannon, looks like a jewel and got all the high-tech features on it you expect nowadays. I fished with it on small French venues, on Dutch canals and big lakes so far and it's really a pleasure to feel the action in it. Even the strongest or most clever carp will not expect what this rod is capable of during a good fight. Watch out for it people! This one rocks the spot.

Felix van der Marel

C2 Natura

C2 Natura Tech

C2 NATURA

Premium grade cork handle, extremely comfortable and reliable.

Inspired from nature, this is why we have named this new series of our glorious C2 "Natura". We have used a new version of 24 Tons HM carbon that provides a more reactive action but preserves the full parabolic progressive action when fighting a carp. The new blank has plenty of power but it's also extremely easy to cast, during the final test on April '14 we have reached 139 meters using the 12ft 3.00lbs and a 100g lead with 0.33mm monofilament.

FEATURES

- Premium grade full cork handle
- 50mm starting guide on 3,5lbs versions
- Metallic butt cup
- 24 tons HM carbon blank
- HD reel seat

Item No	Length	Test Curve	Sections	Transport Length	Weight

C2 CELEBRATION CARP RODS

A real celebration of the old school carp fishing rods

A special edition of our C2 rods, made using the same 24 Tons HM carbon of the Natura range but with a different taper and length to provide a much softer action. The blank on the Celebration version is fitted with 8 SIC guides plus tip. A real celebration of the old school carp fishing rods, the perfect tool for the carp angler who really wants to enjoy every single fight, especially when using braided mainline.

BASTIAN REETZ

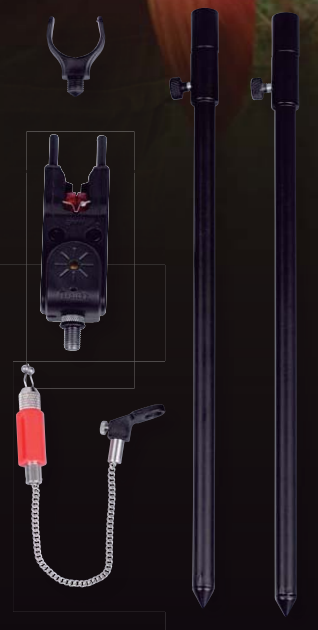

NEW FIRESTARTER R.T.G. COMBO

All you need to get your carp fishing passion started! Ready To Go, just add any Okuma carp reel of your choice and you have all you need to start hearing your bite alarm screaming.

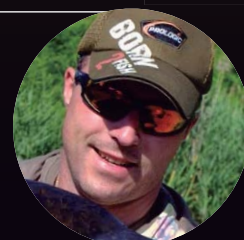

This combo provides the best value for money possible to all the people who want to start our fantastic discipline, or a good back-up solution for anyone who likes to have a spare set "just in case". 12ft rod with a composit carbon blank in two sections with a high density EVA handle, two black telescopic banksticks 30-50cm, visual bite indicator, rod rest, and our SMW bite alarm with integrated and illuminated snag bars.

FEATURES

- 12 ft rod available in 2 or 3 section
- Composit carbon blank
- Two telescopic banksticks 30-50cm
- Rod rest
- Visual bite indicator
- Prologic SMW bite alarm

The Firestarter R.T.G. combo is an excellent combo for anyone - from anglers entering the world of carp fishing to experienced carp anglers, who expect high-performance tackle. It is easy to transport, reliable and easy to assemble: Real value for money!

C.O.M. CARP RODS

A range of Ultra Light carp fishing rods with truly innovative design features.

The concept behind the C.O.M rods, was to produce a rod suitable for the smaller waters and for medium sized carp. Not everyone has time for long sessions and throughout Europe there are thousands of small lakes, rivers and canals holding good stocks of medium sized carp. Because of these two factors, we have thought about carp fishing in an entirely different way. So we have designed a series of rods which will allow the carp angler to use the perfect tool for this style of fishing. So, for the first time we have developed a range of Ultra Light carp fishing rods with truly innovative design features. Each model incorporates a different handle length and blank action to perfectly suit every situation. During field testing, it proved amazing to discover so many new carp waters that had been overlooked or because the size of the carp was considered irrelevant! In practice, several double figure carp were caught including some 20's and believe us, it was an amazing experience.

Item No	Length	Test Curve	Sections	Transport Length	Weight
45673	8' 240cm	2.0lbs	2	123cm	171g

FEATURES

- 30T High Modulus Carbon Blank
- Parabolic Progressive Action
- SIC guides
- Heavy Duty Camo EVA Handle
- Metallic But Cup

TONY SMEETS

This really is one on the most versatile rods I've ever used, and it's more than just two rods in one, thanks to that clever extension piece that turns a 9-foot rod into an 11-footer. With its 24T high modulus carbon blank and 2.27lb test curve, this rod gives me plenty of power but in its 9-foot guise it's great for those up-close and personal situations. Then, if you need that extra range and playing performance, the extension can be fitted in seconds with no need to break down the rod – and it does so without compromising the parabolic action. This rod is a must if you are fishing one of those waters where you need different rods for different swims.

Tony Smeets

NEW C.O.M. PURE STALKER

The ultimate stalking rod.

Following the great success of our C.O.M. carp rods we have decided to increase the assortment in this very specific rod range specifically for small waters and ultra-light carp fishing. The C.O.M. PURE STALKER features a shorter one section duplon handle, 8+1 guides on a 9ft two section 2.75lbs TC blank. Thanks to the additional extension section it can also be used at 11ft length keeping the same powerful but parabolic action.

FEATURES

- 24T High Modulus carbon blank
- High density Duplon handle
- SIC guides
- Parabolic action

Item No	Length	Test Curve	Sections	Transport Length	Weight
49828	9'/11'	2.75lbs	2+1	140cm	282g

Specialista Twin Tip

MP Specialist Pro

NEW SPECIALISTA TWIN TIP

Ultra-light blank for maximum sensation.

All-round specialist rod with twin tip construction, 24T high modulus blank. Despite the extremely lightweight blank this rod has proven to be extremely strong and able to handle large bream and tench in any situation. Also a very good solution for float fishing for carp and grass carp.

FEATURES

- Twin Tip construction
- DPS reel seat
- 24T high modulus carbon
- Parabolic action

Item No	Length	Test Curve	Sections	Transport Length	Weight
49840	10ft 300cm	1.75lbs	2	155cm	289g
49839	12ft 360cm	2.00lbs	2	185cm	352g

MP SPECIALIST PRO

The specialist angler's dream of a rod! Built on a super sensitive, responsive, and yet forgiving blank - perfect for multi purpose specimen hunting!

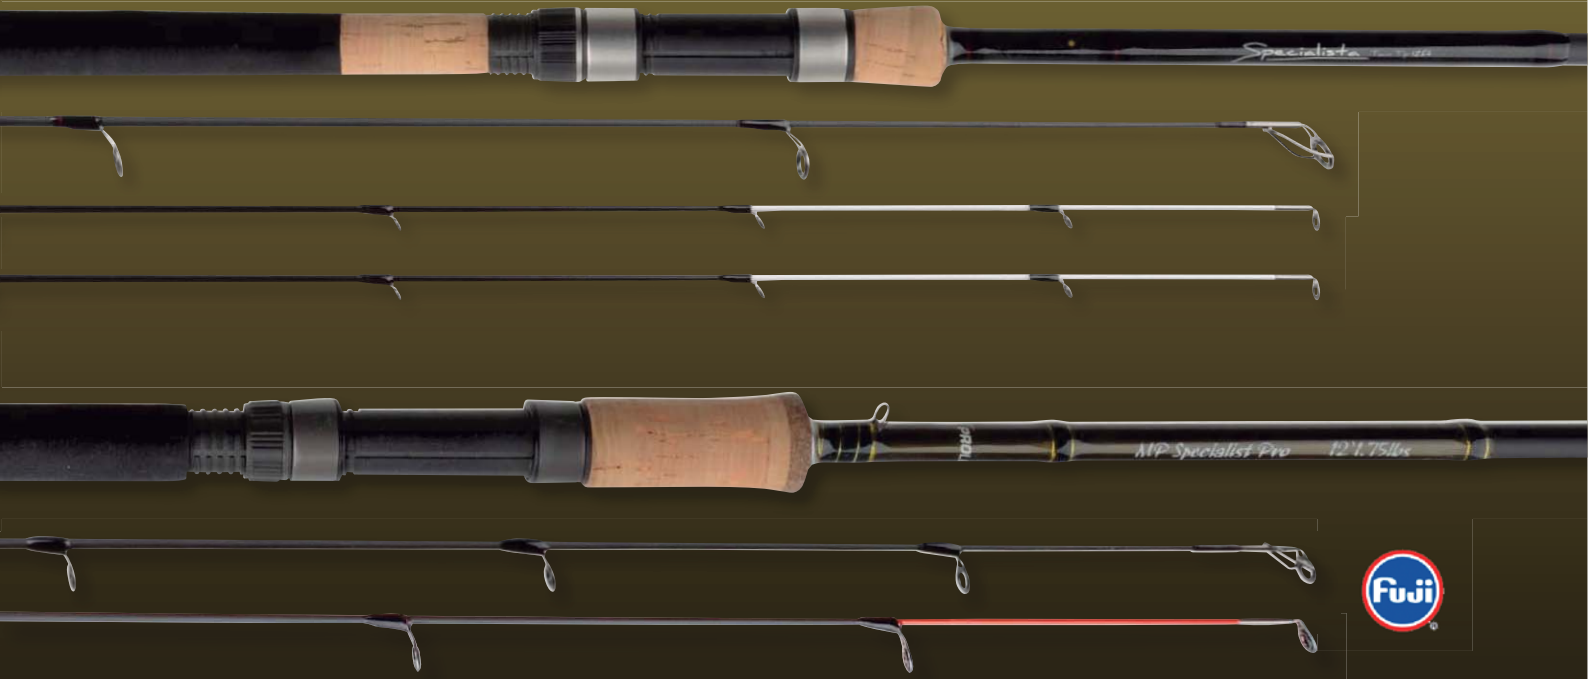

Whether ledgering, float fishing, or loose lining, these rods are so delightful to fish with – no compromises made – the perfect rods for big bream, tench – specimen perch or even big sea trout with bombarda floats from the coast!

FEATURES

- Fuji reel seat
- Premium quality SIC guides
- Grade AAA Portuguese cork handle
- Ledger tip, with sensitive indication carbon tip
- Deluxe rod bag and rod straps

NEW MP DETEK TWIN-TIP

Multi Purpose twin-tip, specialist rod.

High value for money for this specialist rod, high modulus carbon blank in two sections with two ultra sensitive tips and a nice responsive-parabolic action. A dream rod to fish with, no matter if your targets are big bream, tench or carp with light feeders or simply fre-lined.

Item No	Length	Test Curve	Sections	Transport Length	Weight
49829	10'	1.75lbs	2	157cm	197g
49830	12'	1.75lbs	2	187cm	290g

FEATURES

- Ultra sensitive tips
- SIC guides
- 20T high modulus carbon blank

The New Detek Twin Tip, is a perfectly designed 1.75 test specialist multi tool. Equally at home fishing for hard fighting Barbel and Carp on big rivers or lakes. But due to its very responsive parabolic action it's a dream to use for other specialist species such as Tench, Bream and Chub on streams and small pools. Supplied with 2 full length tip sections gives the angler more options to use the Avon or Quiver section. This is a great all round specialist rod available in 10 or 12ft options. Boasting a 20T high modulus Carbon blank, Ultra responsive tip sections, SIC guides, HD screw down reel fittings all assembled to the highest standard at a price you will not believe.

Rik Johnson

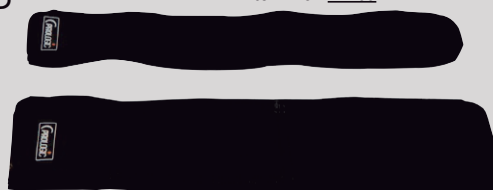

RIG & LEAD ROD STRAP

Item No. 47269

Renewed version of our neoprene rod strap. They feature an elasticated pocket in which it is possible to safely store the lead and to avoid any risk of damaging the rods. The hook and rig can be easily fitted on the outer part of the straps where it can safely hold 2 neoprene straps in each pack.

MEGACAST FINGER GLOVE

Comfortable and durable, it gives good sensitivity thanks to the neoprene Velcro strap cuff and the soft elastic fabric construction. Good sensibility thanks to the soft leather finger section, it can be used by both right and left handed anglers.

SMX BITE ALARM KIT

Extremely compact, the new SMX alarms from Prologic have all the important features needed for the modern carp anglers and more. Extremely compact and elegant shape, it uses normal AAA 1.5V batteries. Totally waterproof, we have used an evolution of the illuminated snag ears previously used in the SMW alarm, but with a substantial difference, on the SMX the illuminated snag ears are telescopic so more compact and safe to store and more adaptable.

ALARMS

- Available in 3+1 and 4+1 kit
- Operates with 2 AAA 1.5V batteries (not included)
- Five volume levels plus silent mode
- Four sensitivity adjustments
- Seven tone adjustments
- 100% waterproof
- Diamond shaped roller
- Dedicated drop back LED indication
- Dedicated drop back tone
- Ultra-bright LED

RECEIVER

- Operates with 2 AAA 1.5V batteries (not included)
- Memory function
- Silent mode
- Vibration mode
- Dedicated LED for drop back indication
- Courtesy night light
- 100% waterproof

POLYPHONIC V2 VTSW BITE ALARM KIT

After many years of success with our first version of the Polyphonic alarm we are ready to introduce the further development of this famous alarm

The alarms and receiver incorporate 8 polyphonic tunes plus 5 standard tunes and nightlight. To improve bite detections, we have created a system that in case of a single or double "beep" only uses the standard tunes, and only after the 3rd "beep" switches to the selected polyphonic tunes if you have a run or drop back bite. 100% waterproof, this alarm features a hybrid body construction, which makes the Polyphonic virtually indestructible, and gives it a unique and modern look. Metallic snag ears can be easily connected to the alarm thanks to the built-in screw on the backside of the alarm.

The receiver has a built-in screw on the bottom plus a plastic base so it is possible to place the receiver on a bank stick or on your bivvy table. The built-in nightlight flash will light up for 20 seconds in case you have a run to help you finding the way out from the bivvy, but it can also be switched on and off manually. Another very important feature is the double LED indication with one line of LED dedicated for run indication and white LED just underneath the coloured ones, which only flashes if you have a drop back indication. Available in 3+1 and 4+1 versions.

Removable snag ears included

ALARMS:

- Integrated removable snag ears
- Multi colour LED
- Silent mode
- Nightlight function
- Oversized magnetic roller and shockproof
- Ultra bright LED
- 100% waterproof and shock-proof
- Twin body construction
- Plug for illuminated swing and hang indicators
- Volume/tone/sensitivity regulations

RECEIVER:

- 100% waterproof
- Reproduces alarm tunes automatically
- Courtesy nightlight with automatic and manual ON/OFF
- Double LED indication for run and drop back
- Vibration mode
- 150m range
- Operates with one 9V battery

UNIT BITE ALARM KIT

No other bite alarm on the market has the same features as our new UNIT in such compact shape : tone, volume and output jack for illuminated bite indicators. They come in a luxury box with a full set of interchangeable rollers with 1 and 4 magnets, allowing you to change the sensitivity of your alarm depending on the fishing situations. The receiver has new flat-shaped LED that provides superb illumination. The receiver also has an ultra-bright white LED that automatically turns on after the 3rd "bip" providing good illumination to walk out of the bivvy during the night. Because of that we have provided the receiver with a small thread so it's possible to fit the receiver on a bankstick just outside the bivvy illuminating the path to the rods.

- Energy saver circuit
- Supplied with built in 2 magnet roller
- Totally sealed and waterproof
- Ultra-bright white LED
- Interchangeable roller
- Silent mode
- 5 tone and volume level
- Oversized and powerful speaker
- 1 roller each color with one magnet
- 1 roller each color with four magnet
- 150m wireless range
- Different illumination on receiver for run or drop back indication
- Memory function on receiver
- Silent mode and vibration
- Supplied with Neoprene ultra soft cover
- Uses one piece of 4A76 6V battery

- One SMW bite alarm with illuminated snag bars integrated
- One hang bite indicator (red colour matching the bite alarm)
- Re-inforced nylon rod rest

Item No. Model
 49883 PL Cruzade Carp Kit R.T.G.

I'm very particular with my indicators and the improved version of the Swing & Hang Indicator Kit has everything you need in an indicator. I'm one of those anglers who loves short and stumpy indicators and with this set you can achieve this, but there's so much more on offer here. With the adjustable magnetic line clip there's no chance of line damage, and there are five different head colours which you can mix up if you want it a bit techno. Finished off in black gloss so it looks good on the bank, each indicator comes with a quick-release connector so fitting and removal can be done in seconds. As I said, these are so much more than your average indicator.

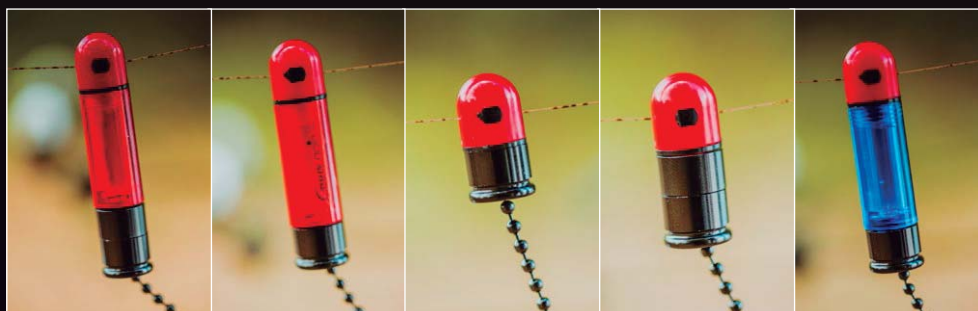

Tony Smeets

NEW SWING & HANG INDICATOR KIT V.15

Updated and an improved version of our world-famous indicators. Brand new design, they feature a more compact head and line clip with adjustable tension. As always they are supplied with a full colours assortment to match your bite alarms or to make your own choice of colour combinations.

I'm a big fan of our Windblade indicators. I fish both small and big venues, and it would be rather time consuming to change the visual bite indicator every time. The Windblade indicators, however, I can use in every situation - no matter if I fish at long- or close range. Another highlight is the bodyform of the windblades: There's no quivering in the wind and no false alarms.

Stefan Gysbers

WIND BLADE BITE INDICATORS

One more great innovation from Prologic, this visual bite indicator is a real hybrid between swing and hang solutions and it takes into consideration all the situations where our indicators are violently shaken by side wind, creating a lot of disturbance and false detections in our alarms. The aerodynamic shape allows the Wind Blade to easily "cut" the side wind, and the unique system that combines a rubber spacer and a twin internal spring, provides superb stability. The adjustable quick release connection allows you to change the angle of the Wind Blade so you can have perfect line tension – no matter what angle you have placed your rods in.

- Twin spring internal tensioning system
- Quick release connection
- Adjustable connection angle
- Stainless ball line clip
- Beta light slot
- Available in blue, red, green, yellow and black
- High grade Aluminium body

Probably the most versatile piece of kit I have ever used. If you're an angler that's like to travel light, but you also need to be able to cover every eventuality. Look no further! This kit is truly unbelievable, giving the angler the choice weather to fish 3 rods on single bank sticks or 3 rods goal post style. You even have the option to fish 3 rods on one of the sexiest low profile, light weight, carbon rod pods on the market to date. What's even more amazing is the fact that all this packs away into a bag no bigger than your standard buzz bars. Constructed using 3K Dry weave carbon and Black anodized fittings make it super light, very strong and very pleasing to the eye. There is even a small hole in the centre boss which allows you to use a bivvy peg to anchor it to the ground or screw it to wooden platform. Perfection without having to take the kitchen sink!

Rik Johnson

NEW QUASAR POD 'N' GOAL POST KIT (3K WOVEN CARBON)

The re-definition of a multi-functional rod pod from Prologic. Our new Quasar pod 'n' goal post kit take the best from both worlds - rod pods and banksticks, and combine them together. This is a product that can be used in many different ways, depending on your personal choice or the swim you are fishing, providing endless set-up options all in a very compact and lightweight system to carry around. It can be used as a traditional goal post system using the bankstick length of your choice between the two sizes provided, or, if you need some extra stability or fishing from a wooden stage you can use the central block, made in high grade stainless steel to connect the 4 longer bankstick and create a proper ultra-stable rod pod.

- Four 3K carbon telescopic banksticks 30-55cm
- Four 3K carbon telescopic banksticks 12-20cm
- Four black anodized aluminium adaptors
- Two 3K carbon buzzer bars
- High grade stainless steel central block
- Carry bag included (42x22x6cm)

- Four black anodized aluminium telescopic banksticks 12-20cm
- Four black anodized aluminium adaptors
- Two black anodized aluminium buzzer bars
- High grade stainless steel central block
- Carry bag included

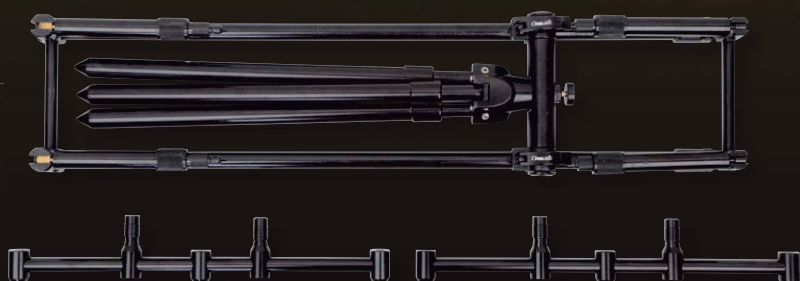

Item No.	Description
49872	Black Fire Pod 'n' Goalpost Kit 3rods

I've been a great fan of the super-stable SLP Rod Pod since the first time I tried it. My club waters are not the biggest. We have small rivers and many canals and the banks are quite uneven. This conditions are ideal for this pod because the three SLP Pod-legs level by themselves. One push of the pod's middle-button and the legs adjust themselves on even the most uneven surface. You cannot find a simpler way to align your pod in such a short time. Additionally, you can adjust the pod at any position or angle you'd like – no matter if you're fishing long distance or short distance.

Stefan Gysbers

NEW SLP ROD POD (SELF LEVELLING PIVOT)

High grade Aluminum body, the SLP (self levelling pivot) rod pod feature a new legs adjusting system that will make rod pod positioning easy and fast like never before. Once in your swim you just need to open the rod pod legs and press the button placed on the main frame knob, moving then the rod pod body in the direction you want to place it correctly, the legs will extend and shorten themselves. Once you have placed the rod pod in the position you want just release the button, job done !

- Three and four rods available
- Full high grade Aluminum body
- Carry bag included
- SLP adjusting system
- Extendable legs from 45cm to 80cm
- Extendable main frame from 70cm to 123cm

48394PL	C.O.M. Micro Pod 3 Rods

QUAD-REX ROD POD

Full high-grade aluminum construction, four legs plus two extra extension legs make the Quad-Rex rod pod able to face any European water. The Aluminum construction, combined with the calibrated dimensions and the opening angle of the legs provide ultimate stability but keeping an extremely light weight, two essential points for any serious carp angler. Available in 3 and 4 rods versions, and supplied with a compact and functional carry bag.

- Full High-Grade aluminum construction
- Supplied with two extra extension legs (85cm to 150cm)
- Twin tubes main frame (adjustable from 85cm to 145cm)
- Available in 3 and 4 rod versions
- Sliding rear buzzer bar connection
- Carry bag included
- Five possible opening positions for the legs
- Total weight only 4,6kg

Item No.	Description
47272	Quad-Rex Rod Pod 3 Rods
47273	Quad-Rex Rod Pod 4 Rods

The Prologic Quad Rex Rod Pod is the best Rod Pod ever made! I own it now for almost 2 years and its really perfect. Prologic claims that It is made from a high grade aluminium and that must be true, after having fished with it for 2 years in all kinds of weather it still looks like the day I bought it! Besides the fact that I love the design it is super stable due to the twin main frame tubes. But what is brilliant is that it is so versatile. It can be used as a normal Rod Pod but there are 2 extra long legs (85cm tot 150cm) supplied with it so it also can be used as a Sky pod what is extremely handy at the river or at weedy waters. But also the normal legs have different lengths so it can be used at any ground.

Robert Bloemraad

CHRISTOPH LAUTENSCHLAEGER

C.O.M. ROD POD

Ultra compact rod-pod, full high grade aluminium body and ultimate stability makes this innovative rod-pod a must-have for any modern carp angler. Twin tube construction, and original Quick Release connection for the buzzer bars are just few of the unique innovations on this product.

Universal Bankstick Stabilizer – Solid as a rock! Ever had the feeling that your bank sticks were not standing sturdy enough? Or when fishing with buzzer bars they twist sideways? Not any more! The Prologic Universal Bankstick Stabilizer will stop your bank stick from twisting in the ground. Simply tighten onto your bank stick and then knock the high grade aluminium peg in the ground. Solid as a rock! I really love these little things, they are extremely compact and lightweight so easy to bring with you. They are always in my bag. I also use them to secure my rod pod when the drag of my reels is tightened when fishing obstacle waters. They will fit every bank stick or rod pod leg between 13mm and 22mm. Get yours at your local shop, it's even Tackle Tart approved!

Robert Bloemraad

UNIVERSAL BANKSTICKS STABILIZER

Made using high grade Aluminum and heavy duty nylon, our Universal Banksticks Stabilizer can be used with almost every bankstick on the market. Thanks to the unique solution we have used for the connection it can be firmly connected to banksticks with diameters from 13mm to 22mm, avoiding side twist of your buzzer bar. It can be totally disassembled so it is extremely compact and lightweight to carry.

- Suitable for banksticks from 13mm to 22mm
- High grade aluminum peg
- Enlarged gripping area for the bankstick
- Extremely lightweight and compact to carry

ONE WAY ROD REST

Solid metallic body, extremely compact and elegant, it can hold your rod in the most safe way thanks to the two twisting side bars, perfect solution when you need to fish with semi closed or closed drag. Also the internal bottom section have a non-slip soft rubber insert to prevent any damages to your precious carp rods.

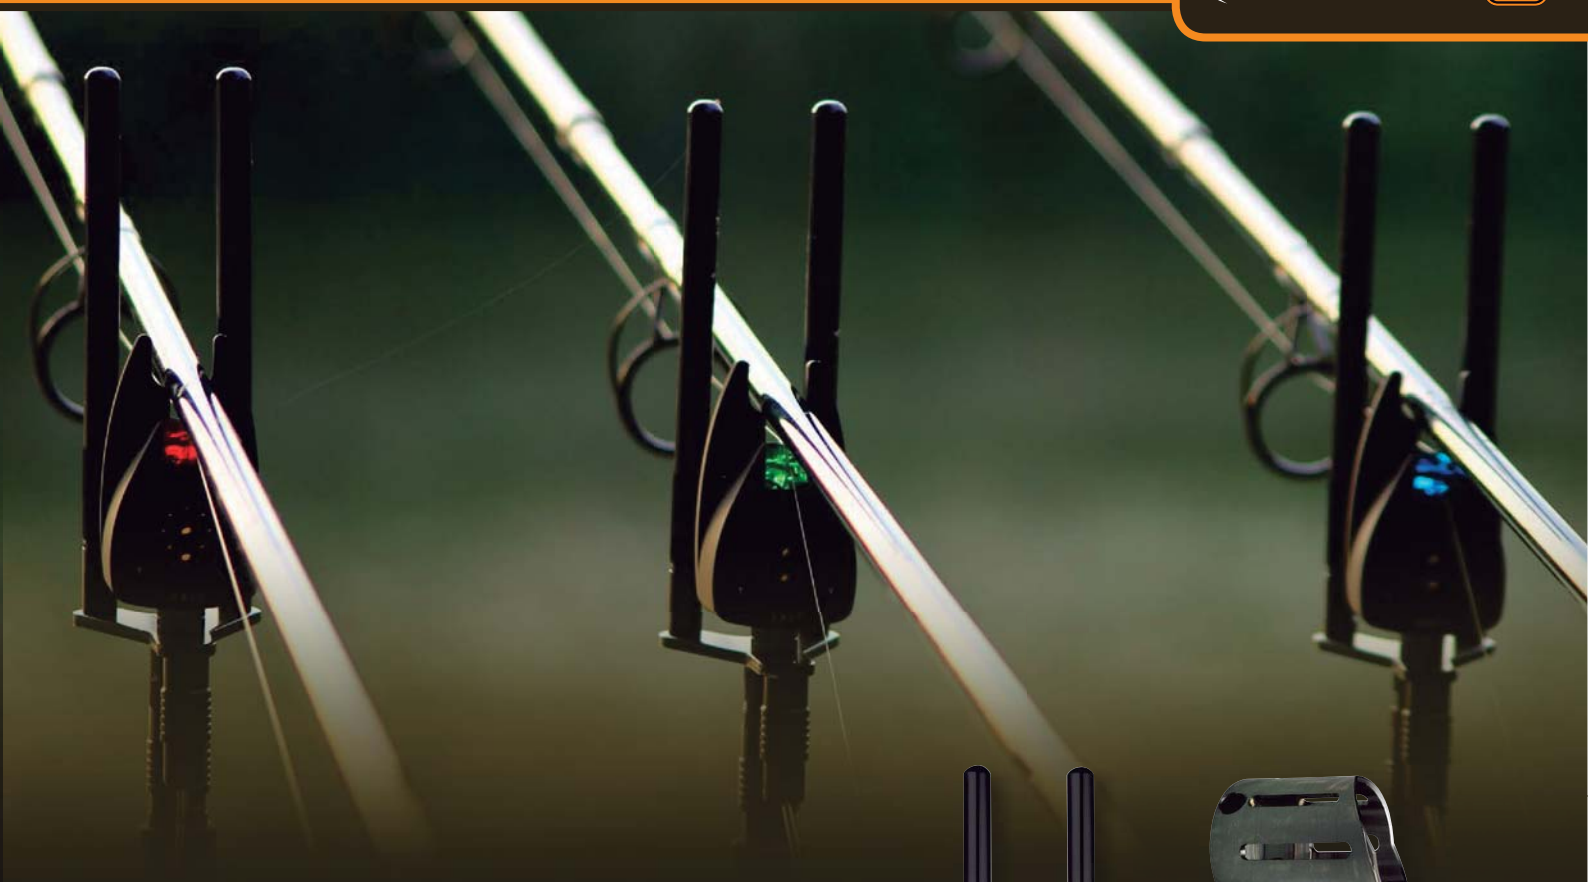

- Solid metallic body
- Non-slip internal section
- Metallic screw
- Can accommodate rods handles from 15mm to 20mm diameters

Item No. 49169

Our one way rod rests are solid and they have a superb feature. I like the two side bars, which are twisting and can hold every rod, no matter if you have a smaller rod diameter or a bigger rod diameter. I'm fishing much on uneven banks and therefore my rod tips are very close to the water. So if you get a run and your drag is mostly closed, the fish cannot drag the rod off the pod, because the twisting side bars lock in position.

Stefan Gysbers

LIAM DEACEY

The Prologic Zigger Landing net comes with many of the features you would expect to find on a more expensive net. The 180cm full HM 24T carbon handle comes with a spigotted 120cm extension that gives the angler a full 10ft/3.00 meter handle to bank those hard to reach fish. A solid 3K HM Carbon spreader block that gives great stiffness yet reduces significantly the overall weight. As the name suggests the zigger landing net was designed for landing your fish when zig fishing with long zig rigs. To help the netting process two shaped EVA sleeves were added on the mesh arms so even when you are fishing alone with long Zig rigs you will be able to net your carp with no problems. But it also proved to be very handy to land your fish over weed or reed. It is a very deep and huge 42 inch landing net in what you can land even the biggest carp! Go check it out in your local tackle shop and be surprised by the size and high quality of this landing net!

Robert Bloemraad

ZIGGER LANDING NET

We guess many of us have had problems while fishing with long Zig Rig when it was time to net the fish, that's why we have created this new landing net. The handle is made in full HM 24T Carbon, in two sections of 180cm and 120cm each, so it can also be used as a standard landing net for normal situations. To extend the handle is enough to unscrew the but cup at the bottom and connect the 120cm extension. Another unique feature of this landing net is the spread block, which is fully made in 3K HM Carbon, a solution that gives great stiffness and significantly reduces the overall weight. To help the netting process we have added two shaped EVA sleeves on the mesh arms so even when you are fishing alone with long Zig rigs you will be able to net your carp with no problems.

- 300cm two sections Full HM 24T Carbon handle
- Two section handle 180cm and 120cm
- Solid 3K HM Carbon spread block
- Shaped EVA sleeves on mesh arms
- Spigot joint

QUICK RELEASE LANDING NET

The Quick Release Landing Net is by far the easiest and fastest carp landing net on the market. It combines a stainless steel spring loaded spread block, which makes it possible to put the mesh arm connectors in parallel positions - and then thanks to the reinforced Quick Release connection you can put the net head in place in a blink of an eye. Vice versa procedure to remove the mesh: it has never been so easy and fast to take apart the net head and to safely place your catch on the unhooking mat. The Quick Release Landing Net is available in two versions: 42' mesh with 180cm one section handle, and one dedicated version for our C.O.M. concept with 32' mesh and 180cm two section carbon handle.

- Full carbon handle
- Full carbon mesh arms
- Fast dry mesh
- Reinforced Quick Release connections for the net head
- Virtually indestructible nylon spread block

Available for mainland Europe only

Item No	Size
47299 PL Quick Release Landing Net	42"
47300 PL Quick Release Landing net	32' 1sec handle

This landing net is extremely fast to assemble and vice versa. This connectivity speed is possible due to very innovative assembling system. Angler can connect carbon mesh arms to spread block with Quick release connectors in parallel position. Then simply pull mesh arms apart and stainless steel spring locks into position and net is ready to use. When closing down mesh arms, simply push button on the left side of spread block and detach mesh arms. This landing net has a strong, quick dry mesh, which is easy to wash and it dries up within approx 20 minutes when exposed to sun. 180 cm full carbon one section handle comes in handy, when you have to reach far out to land fish into net and due to its strength it is very resistant against breaking. At the end, handle has a rubber part, which helps angler to have a good hand grip while landing a fish.

David Primožic

BASTIAN REETZ

MULTI LENGTH HANDLE LANDING NET

Thanks to this new simple and reliable handle system, you can use this landing net in three different handle lengths. You just need to push each section into the bottom of the spread block and it will be safely blocked, just pull it to release the section and increase the length. As for all the Prologic landing net we have used as strong and fish friendly mesh.

- High Modulus 24T carbon handle
- Handle length for the 32" version 70,118,165cm
- Handle length for the 42" version 85,138,190cm
- Carbon mesh arms
- Waterproof transport bag included
- Safe grip handle

STERI-7

PROTECTION BETWEEN CLEANS

THE STERI-7 AQUACULTURE RANGE

STERI-7 Xtra for Aquaculture is a range of modern disinfectants and cleaning products developed specifically for aquaculture producers and processors. UK – Bio-security company STERI-7 Worldwide has developed STERI-7 Xtra for Aquaculture use, Independently tested against aquaculture pathogens, the product range provides highly effective products for full hygiene programmes in all fish farming and aquaculture situations. And, has been added to the Defra Aquaculture Disinfectant Listing Scheme CEFA.

• STERI-7 is a UK based Company which operates Internationally, in most market sectors including Healthcare: Food Manufacture and Food Supply Chain, together with all Agriculture sectors. More details at www.STERI-7.com

• STERI-7 is fully compliant with BPR (Biocidal Products Regulations) laid out by the Health and Safety Executive, manufactures products to ISO 13485, and operate in industries regulated by DEFRA, CEFA, DARD, WHO and TGA.

STERI 7 EXTRA DISINFECTANT

For any fish farm or fishery business bio security is utmost in terms of ensuring the prevention on disease and protecting the welfare of the animals we deal with. "You can't put a price on biosecurity" is a well used phrase in our industry

We have routinely used the product for the disinfection of our hatchery equipment for the past two years and are now using it to disinfect our equipment including tanks, slings, mats and the truck itself.

The ease of use, being able to test its activity with the simple test paper system and its ability to work in circumstances involving soiled equipment means that for our work it covers all the bases. Having been proven in other fields and with its long list of EN assessments we are confident that we are using one of the best products available.

The potential for the range of products in fisheries as net dips and general disinfection purposes is very promising and we certainly look forward to working with the team at Steri 7 in the future as they develop further products for the protection of our, and other fisheries, valuable fish stocks.

Viv Shears & Simon Scott
VS Fisheries Ltd

49855	Overwrap	Fits 1man	1.8kg

NEW FRAME-X BIVVY ONE MAN

New frame concept, self-standing, easy to erect and space optimization at its top. The all new FRAME-X BIVVY features a brand new construction concept that makes the set-up of the bivvy easy and fast like never before. The two main frames are made in three sections and once connected they create an X shape on the two sides that creates incredible stability. Thanks to this special design this bivvy offers a very good internal space, keeping a very reduced footprint so it can be placed even in the most tightest of swims. Also available as an optional extra there is an overwrap available, made using the same strong and waterproof fabric used for the bivvy. It provides ultimate protection from rain and more insulation, eliminating all the problems of condensation. It also provides a little extra space in the front where it is possible to store some of your gear during the rainy days.

- 210D Rip-stop fabric
- 100% waterproof
- Reinforced groundsheet
- Metal pegging points
- Mosquito mesh door
- Unique X frame design
- Semi-flat back for maximum internal space

Click for video

The X Frame design gives this bivvy everything I need for my summer and winter fishing. Easy to erect and compact, this new concept in bivvy design gives you maximum room, the smallest possible footprint, and a semi-flat back to make the most of those tight swims. Yet, the Frame-X bivvy will accommodate the largest of bedchairs and for me this is essential because I like the room, especially when Max, my carp terrier is along for the trip. For the summer I can zip the front out to give a great view and the bivvy's small peak stops the rain driving in. There's also a scull cap winter skin, which gives me maximum protection in severe weather conditions. The Frame-X bivvy; I don't know how Prologic has made such a compact bivvy so spacious inside – but I'm really pleased they've managed it. What a great bit of kit this is.

Tony Smeets

For this innovative bivvy we have created a brand new frame that is totally unique in design and functions.

Despite the very compact size of this bivvy, the internal space can be used in the most effective way possible, providing excellent room and comfort for one angler and all his gear. The concept behind this frame is to avoid any detachable joints that sometimes makes life a bit trickier while setting up you bivvy. The frame of the new Spider Trio is made using three connected sections that can be folded together, no parts that need to be connected ! As for the other top-range Prologic bivvy the Spider Trio features zip-on groundsheet and 210D Rip-stop fabric 100% waterproof.

SPIDER TRIO ONE MAN

- New 3 sections foldable frame
- 210D Rip-stop 100% waterproof fabric
- Ultra solid pegging point
- Aluminum frame
- Zip-on heavy duty coated groundsheet
- Mozzie mesh windows
- Protective front peak
- Heavy duty pegging points
- Ultra solid pegs included
- Stabilizing bars included

Click for video

Item No	Model	Size	Weight
48367	1 man	130x220x160 (HxWxD)	7.5kg

SPIDER TRIO ONE-MAN OVERWRAP

Important extra accessory for your Spider Trio, extremely lightweight and compact to carry, it provides ultimate protection from the elements in any period of the year, and thanks to the front peak of the bivvy you will have some extra room in the front to safely store some extra gear.

- 210D Rip-stop 100% waterproof fabric
- Ultra solid pegging point
- Closed sizes 48cmx16cmx16cm
- Mozzie mesh in the front door
- Pegs included

Item No	Model	Size	Weight
48368	1 man	For Spider Trio	1.2kg

The carp fishing market has seen quite a few different solutions for this ultra-essential shelter, mostly used for quick overnight session, we finally decided to bring our own solution to the market.

Thanks to the pop-up system it can be opened and closed in a blink of an eye, but this is not the only key point for us. The Prologic ENS Bivvy, offers a very useful extra space in the front where you can store your gear, keeping it protected from the rain and wind. Another VERY important point is that this special shelter is fitted to the bedchair first, but then the outer fabric can be fixed to the ground through metal rings and pegs, providing supreme stability even in the strongest wind.

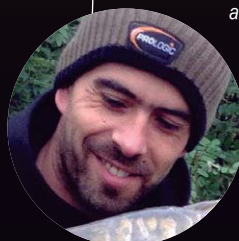

NEW ENS (EASY NIGHT SYSTEM) BIVVY ONE MAN

- 210D double coated fabric
- Pop-up erection system
- Metal pegging points
- Fits to any size of bedchair
- Mosquito mesh
- Extended front side for extra storage space

Item No	Model	Weight
49856	1 man	1.5kg

What can I say about our ENS system. Yes, I felt in love with it during testing it the very first time. Less than two kilo. Fits in every car, big backpack or just under your arm. It's crazy how light and compact it is but still all the features you need for a quick overnighter with it. And within three minutes you are fishing with a roof above your head on the most small and awkward places you can imagine. You could use it even on a small boat if your bedchair fits in. Get on and in it. Watch out for copy-cats! There is only one real ENS system. Prologic represent!

Felix van der Marel

Extremely easy to set up, they can be used for a simple overnight or for your longest session.

Available both in one and two man version, for the Firestarter LWG bivvy range we made a special effort to keep all the most important features needed in a modern bivvy but with a particular attention to the price. They are sold together with the overwrap, so no need to buy extra accessories. Both of them feature a 2 rib metallic frame, 100% waterproof fabric and groundsheet and extra strong pegging points.

FIRESTARTER LWG BIVVY

- 190D 100% waterproof fabric
- 2 metallic ribs frame
- Overwrap included
- Groundsheet with Velcro connections
- Heavy duty pegs included
- Transport size 103cm X 24cm for the 1man and 107cm X 24cm for the 2man

Item No	Model	Size	Weight
48369	2 man	155x235x300 (HxWxD)	11.2kg
48370	1 man	135x180x270 (HxWxD)	9.2kg

- Incredibly strong and secure
- Black nickel finish

Item No	Colour	Size	Pcs
45691	Black	30.5cm	10

MAGNETIC RIG HOLDER

A very useful accessory that can be fitted to the wall of your bivvy or oval umbrella. It is made using two metallic plates that are kept together thanks to a strong magnet, easy to fit and to remove thanks to the handle placed in the front side, it can accommodate a big number of rigs thanks to the EVA shaped board.

- High density EVA rig board
- Handle on the front plate
- Magnetic connection

Item No	Colour	Size
48391	Black	25x15cm

Compact and lightweight to carry, this oval umbrella will amaze you with the generous space it can offer.

You can easily accommodate a big sized bedchair and a small chair inside, leaving enough room for all your bags thanks to the extremely compact inner frame. It uses extremely reliable fiberglass ribs and aluminum storm pole in the front to optimize stability, and thanks to the extended front peak you can have great protection from the rain and keep your door opened without having water pouring inside. Full zip-on coated heavy duty groundsheet to avoid problems with small animals and insects.

COMMANDER VX2 OVAL UMBRELLA SYSTEM

- 210D Rip-stop 100% waterproof fabric
- Extended front peak for rain protection
- Zip-on groundsheet

Item No. 43887

FIRESTARTER LUGGAGE

For the FIRESTARTER range, we've put in a lot of effort when it came to looking for the details and user friendly features, and at the same we never lost sight our competitive price level. All the products within the Firestarter range feature the new 500D rip-stop fabric in two-tone green, padding in all the critical points and to ensure a safe and comfortable transportation. All in all this is a range with great quality and details at a very reasonable price for the quality that it offers.

FIRESTARTER ROD HOLDALL

- "AIR BOX" reel compartment
- Internal padded divider
- Total cover protection for rod tips
- Two outer pockets

Item No.	Size
47245	3+3 12'
47246	4+4 12'
47247	3+3 13'
47248	4+4 13'

FIRESTARTER TACKLE BAG XL

- Waterproof bottom and moulded top table
- 2 front pockets, and 2 side pockets
- Front and top access to main compartment

Item No.	Size
47238	(64x33x34cm)

6 bait boxes included

FIRESTARTER BAITING BAG

- Waterproof bottom and moulded top table
- 6 hook bait/dip pots included
- Front and top access to internal compartment

Item No.	Size
47243	(28x28x30cm)

TOMISLAV SESTAK

FIRESTARTER MODULAR RUCKSACK

- Rucksack plus detachable top bag, two products in one
- Waterproof bottom
- Four spacious outer pockets + internal mesh pocket

Item No. Size
47239 (55x25x63cm)

FIRESTARTER WATERPROOF METHOD BAG

- Collapsible bucket
- Internal bucket detachable and waterproof
- Outer elasticated pocket for liquids and attractors
- Sizes 30cm diameter and 36cm high

Item No. Size
47266 (29x43cm)

MATTHIEU FAURISSON

HERNYAK GABOR

3 NEOPRENE ROD TIP PROTECTORS INCLUDED

NEW CRUZADE ROD QUIVER

Naked rod quiver system, strong and very practical, it can carry up to three rods, landing net, banksticks and your oval brolly thanks to the spacious main compartment. It comes complete with a set of three neoprene tip protectors.

- Three neoprene tip protectors included
- Spacious main compartment plus outer pockets
- 400D Rip-stop fabric
- Padded shoulder strap
- Can hold up to three rods

Item No.
49869

Size

29x8x17cm

STALKING RUCKSACK & SEAT

Made for anglers who need a bit more volume, this version has adjustable and padded suspenders that provide ultimate comfort also during the longest walks. Four spacious outer pockets and a very useful extra compartment on the top in which it is possible to store any kind of terminal tackle, providing great storage. Also, this version features a padded cover that can be used as a seat.

- Adjustable and padded suspenders
- Main compartment in heavy duty plastic material
- Waterproof main box
- Padded cushion on the top for a comfortable seat

Item No. **47236** Size **34x21x38cm**

STALKING BOX & SEAT

This clever bag features a super comfortable adjustable shoulder strap, four spacious outer pockets and a hard case inner box that can safely store all the gear you need for short sessions. This hard inner box has a padded cover, which makes it suitable to be used as a seat.

- 4 spacious outer pockets
- Adjustable shoulder strap
- Main compartment in heavy duty plastic material
- Padded cushion on the top for a comfortable seat

Item No. **47235** Size **26x24x21cm**

ANTONY DINTRAS

COMMANDER RIG BOOK

- Real "library" for rigs
- Five separate compartments for rig boards
- Fully padded
- Internal mesh pockets
- Can store up to 100 rigs

Item No. 47265 Size (44x11x13cm)

FIRESTARTER RIG WALLET

- Hard case rig wallet
- Internal pockets for accessories

Item No. 47241 Size (35cm)

FIRESTARTER LEAD BAG

- Hard construction lead case
- Internal compartment can be closed with a zipper

Item No. 47242 Size (26x19x13cm)

COMMANDER LEAD CASE

- Two separate internal compartments
- Internal compartment with zipper closure
- Heavy duty zipper
- Can store 10 different sizes/shapes of leads

Item No. 47265 Size (26x19x13cm)

NEW CRUZADE LEAD BAG

A small accessory bag that completes the Cruzade range. Made to store leads and backleads, it can also be used for many other purposes, any small accessory or even your digital camera will find safe storage in the Cruzade Lead Bag.

- 400D rip-stop fabric
- Gently padded
- HD zipper

Item No. 49866 Size 29x8x17cm

BAPTISTE CAILLER

NEW WATERPROOF PVA WALLET

Made using ultra-light PVC material, it is manufactured following the world famous "dry bags" design, mostly used in fly fishing, where waterproofness is the most important feature on each product. Keep all your PVA products dry and well organized thanks to the internal dividers and pockets.

- The most waterproof PVA wallet on the market
- Reinforced PVA material
- Internal pockets and divider
- Compact and lightweight

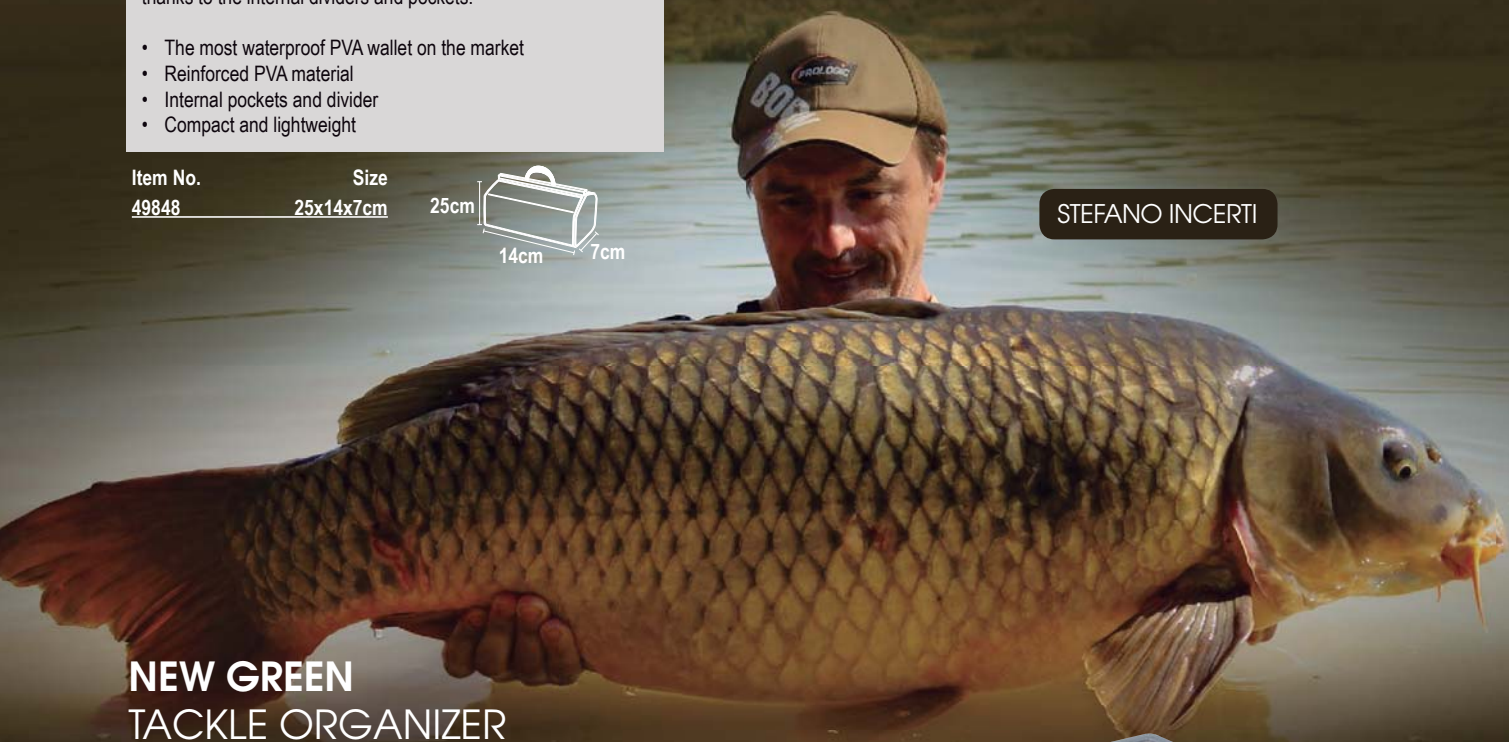

Item No. **49848** Size **25x14x7cm**

MP BUCKET W/BAG

Ultra light and compact bucket supplied with 2 meters of rope and carry bag. It covers many different purposes. It's perfect whether you need water to keep your method and ground bait wet or when you just need to keep the fish wet while taking pictures.

Item No **45727** Size **30x26cm**

STEFANO INCERTI

NEW GREEN TACKLE ORGANIZER

6+1 Box system

Item No. **42509** Size **6+1 Box system 37x30x6cm**

NEW GREEN RIG BOARD

2 boxes included

Item No. Size
42510 35x8.5x3cm

LUMIAX TACKLE BOX LAMP

- Ultra bright single LED
- Can be connected to any tackle box or bivvy table
- Compact and lightweight
- Operates with two CR1220 batteries (included)

Item No. 47346

ZIG RIG WALLET

- Hard plastic case with EVA internal padding
- 12 EVA round winders + pins included
- Can store up to 12 ready zig rigs

Item No Size
47360 19x15x6cm

ROBERT BLOEMRAAD

LUMIAX SWIM LIGHTHOUSE

Simple but useful set of two ultra-bright LED light that can be applied to any rod pod or bankstick to help you find the way back to your swim when you are out with the boat during the night.

- Two working functions: continuous or flash light
- Kit with white and red lights
- Waterproof
- Operates with 2 CR2032 batteries (included)

Item No. 47347

SAFE ZONE LIGHT GUARD MOVEMENT SENSOR LED

Magnetic 6 LED that can be attached anywhere on the skin of the Bivvy, Umbrella or Shelter, with the metal disc. Pcs: 1

- Adjustable Activation Distance (max. 3m)
- Adjustable Delay time
- Adjustable LED strength
- Operates on 4 pcs AAA batteries

Item No. 42473

LUMIAX HEADLAMP

- Zoom Head Lamp 3W Cree LED
- 3W Cree Led: 150 Lumens
- Two working options: "on" (adjustable brightness); "flash" (adjustable brightness)
- Adjustable beam focus (long beam & short beam) by turning head
- Adjustable inclination angle (90 degree)
- Works with 3 "AAA" Batteries (not included)
- Totally waterproof

Item No. 47345

Long beam focus

Short beam focus

TONY SMEETS

ENRICO PARMEGGIANI

ZIG & SURFACE FLOATERS KIT

Set of 3 high density EVA floats in assorted colors. Each float is equipped with two removable 15g disk weights. They can be used as a submerged float removing the 2 weights when fishing with zig rig, or used as a surface float with adjustable weight using one or both of the two weights depending on the wind conditions and on how far you need to cast.

Item No. 49121

NEW M.F.I. METHOD FLOAT INDICATOR

Everyone knows how effective the method lead can be in certain circumstances, well, you must know it also works well if used upside-down for surface fishing ! Used in combination with floating pellets or surface groundbait it can be deadly effective during sunny days when carp are cruising the surface. The unique design allow long and accurate casts, and holds the groundbait safely, on the other side a red, high density EVA foam section guarantees optimal floatation and visibility.

- 15g weight
- Inline
- High visibility red EVA

Item No. 49845

SUBMERGED FLOAT & ATTRACTORS BULB

The most effective way to date, which is now available and ready to help you enhance the buoyancy of your zig rig and to make it more appealing than ever by accurately surrounding it with liquid attractors. This submerged float is made in two sections: the 1st section is sealed and it's filled with air to guarantee perfect floatation in any conditions and depth, this section makes up 2 thirds of the entire float, whereas the second section is detachable and it features small holes all around its surface. This section can be filled with any kind of attractive oils, once in the water, these oils will rise up to the surface creating an oily 'vortex' with your hook bait right in the heart of it. A real revolution for every Zig fishing lover!!

Item No. 48408

ZIG RIG KIT

Complete kit of leads in two different weight versions (84g/30z. and 112g/40z.) both provided with high density EVA anti weed submerged float and high density EVA submerged float with quick release link in both ends for an easy and fast connection to main line and rig, big and soft shock absorber beads and silicon sleeve to cover and protect the quick link connections. With the Prologic Zig Rig Kit you can present your zig rig perfectly in any water, any condition, any depth.

Item No. 48406

84g-30z & 112g-40z

Margin

Long Distance

ILLUMINATED EVA MARKER FLOAT KIT

Innovative marker float made using high-density EVA. Thanks to the natural properties of the EVA body it features natural high buoyancy and a good softness, which make these floats almost unbreakable. It is supplied with two different heads: arrow and round. Both heads can be used normally or, if needed, they can be illuminated simply by pressing the "on" position on the battery.

- Available in two versions: Margin and Distance
- Supplied with two different illuminated heads
- Two batteries included
- Up to 80 hours illumination with one battery
- Superb buoyancy
- High visibility colour
- CR2032 3V batteries included

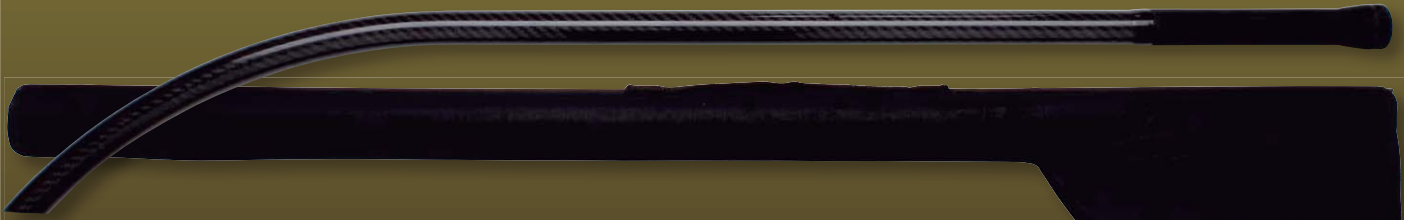

Item No.	Model
47341	Margin
47342	Long Distance

MARKER KIT

All you need for an accurate scan of your swim : high buoyancy float with interchangeable arrow heads (yellow and orange) made in heavy duty plastic, two sounder leads of 85g and 120g, Submerged weed floater that can be connected to any leads and a big shock absorber bead. Doesn't matter how far, how deep or how many obstacles in your swim, with this kit you will always be able to get all the detailed information you need from your spot.

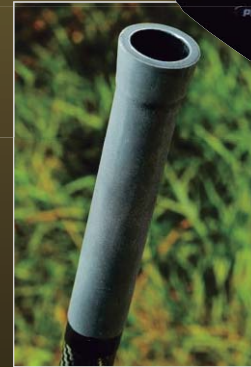

Item No.	48405	85g & 120g
----------	-------	------------

CARBOLITE THROWING STICK

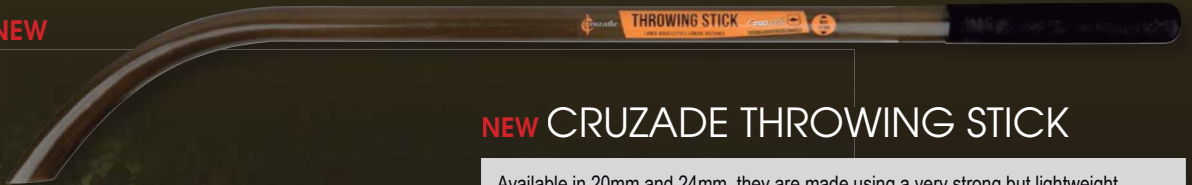

Ultra-light boilie throwing sticks made using two different carbons in order to provide unrivalled strength and lightness. The core of the CARBOLITE THROWING STICKS is made using an ultra-thin layer of 100% High modulus carbon, which is wa second layer of 3K woven carbon. Probably the best throwing stick on the market today, with a super competitive price compared to any other similar products.

- Available in two sizes: 15mm and 25mm
- Casts up to 120m
- Supplied with a deluxe hard case

Item No	Size
47363	15mm
49844	25mm NEW

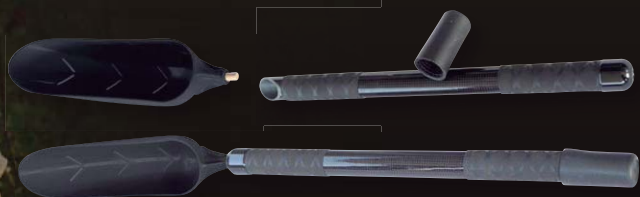

NEW CRUZADE THROWING STICK

Available in 20mm and 24mm, they are made using a very strong but lightweight plastic, soft touch non-slip handle with access to the bottom end for easy cleaning or to remove boilies that could get stuck in the throwing stick.

- Ultralight
- Non-slip handle
- Throw up to 100 meters

Item No	Size
49884	20mm
49885	24mm

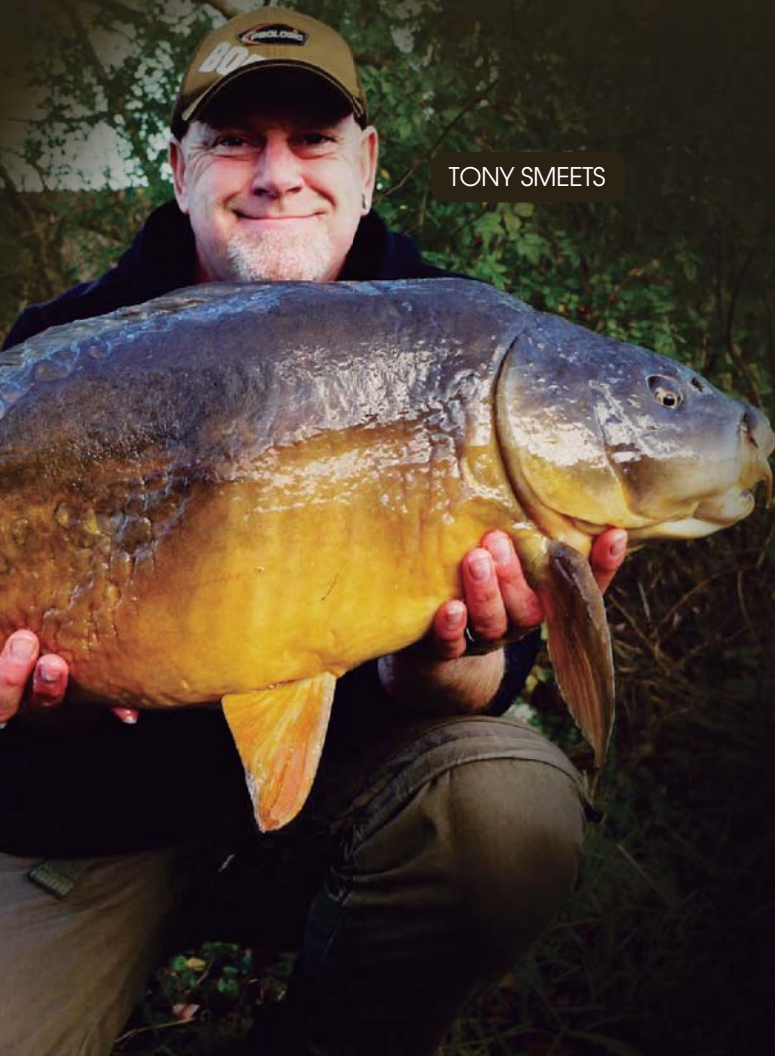

BAITING SPOON & THROWING STICK

One more step forward in gear development. This simple and useful product combines two of the most used prebaiting tools: throwing stick and spoon, so you can actually walk to your swim and do all the prebaiting with one product. It doesn't matter if you have to prebait with particles, boilies or groundbait, from short to medium distance you've got everything covered by the multi-purpose BAITING SPOON & THROWING STICK.

- 3K carbon Style construction
- Non slip handles in both sides
- Suitable for boilies up to 25mm

Item No	Size
47313	20-26mm

TONY SMEETS

MEGACAST FINGER GLOVE

Comfortble and durable, it gives good sensitivity thanks to the neoprene Velcro strap cuff and the soft elastic fabric construction. Good sensibility thanks to the soft leather finger section, it can be used by both right and left handed anglers.

Item No. 48413

PATENTED

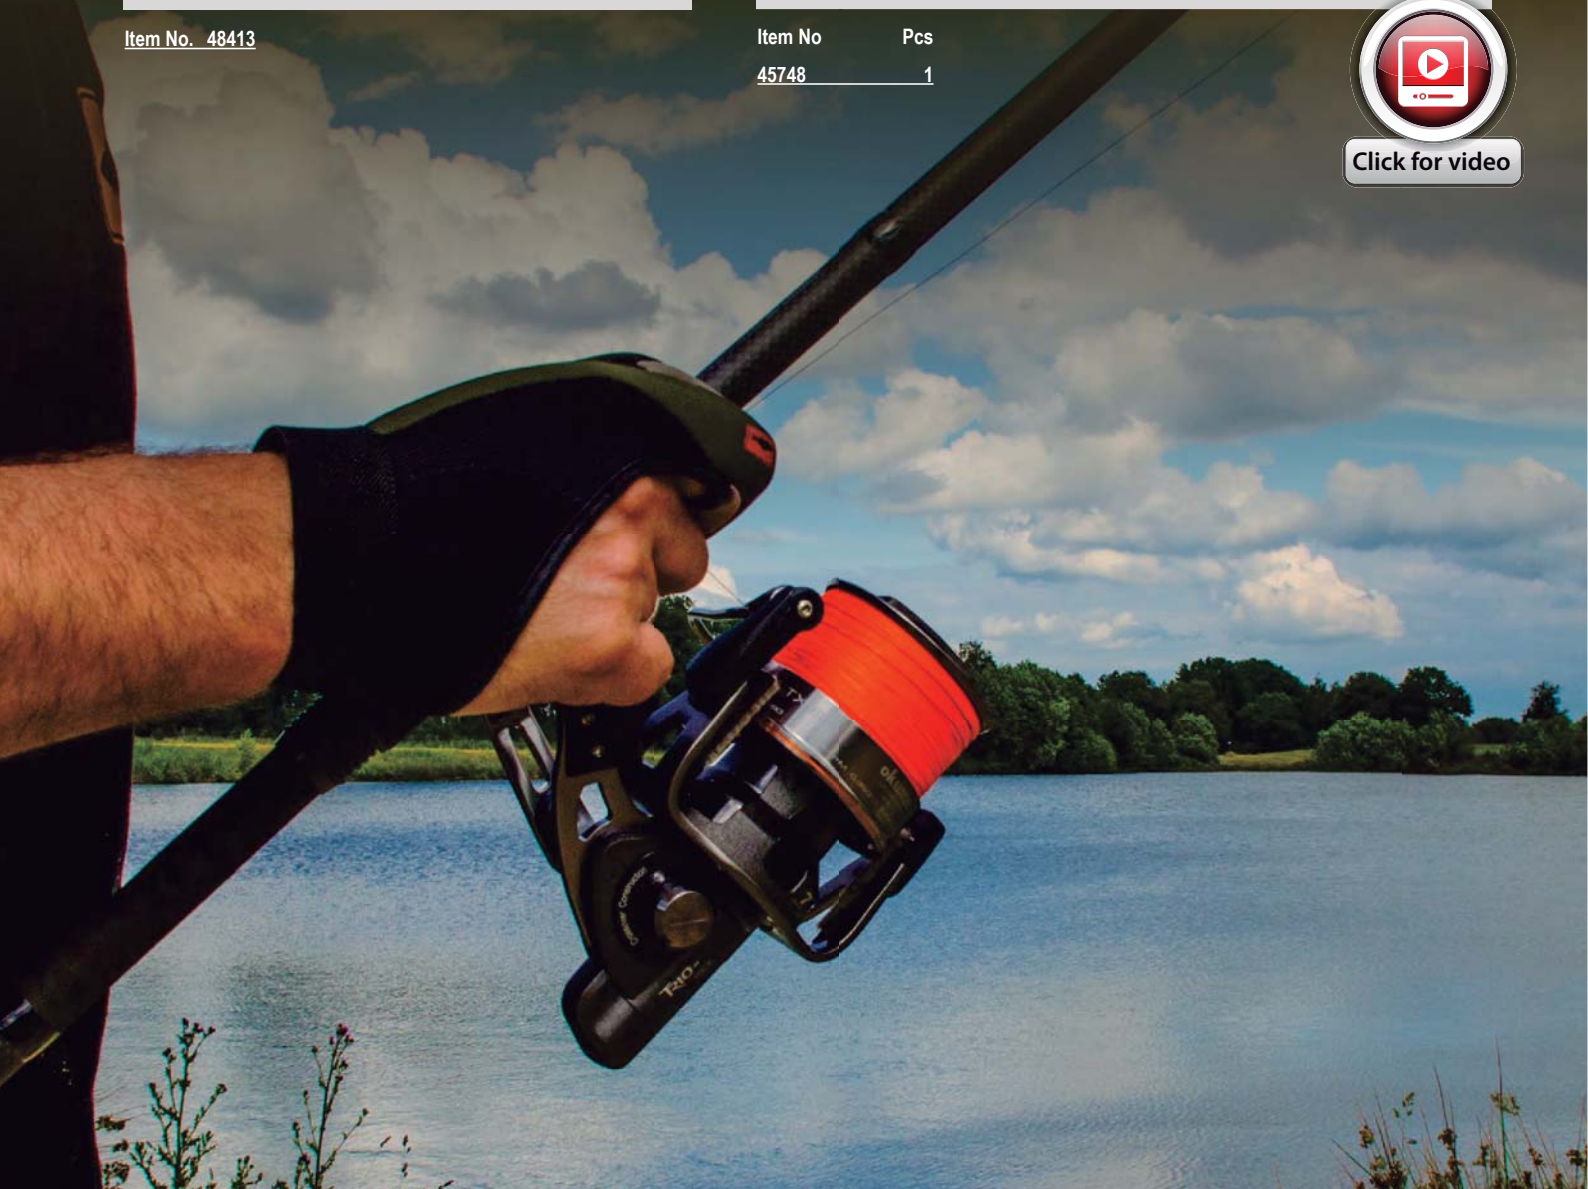

MULTI ROCKET

New generation bait rocket, exclusive design and totally innovative. The MULTI ROCKET is made out of two separate sections, which slide into eachother to increase or decrease the internal volume of the bait rocket depending on the quantity and on the amount of baits used. Holes on the internal-front part allow perfect water penetration.

QUICK RELEASE BOLIE NEEDLE KIT SMALL

Finally a more compact and improved version of our famous QUICK RELEASE BOILIE NEEDLE KIT. This version features Quick Release connection in both sides, increased easy-grip area and a much thinner shape.

Item No	Pcs
45741	1

TOTAL MELTDOWN

There are 2 types of PVA in the TOTAL MELTDOWN range: ABYSS PVA and ALL SEASON PVA. ABYSS is the perfect choice for all deep water fishing as it has an increased thickness of 51 microns, this ensures that the bag reaches the bottom without melting too soon. ABYSS is also the one to use for extreme distance casting due to the high strength as well as warm water conditions as thinner PVA melts immediately on impact with the water. As the name suggests ALL SEASON PVA is for use in all conditions, having a fast melt response in cold water. The micro mesh is knitted using a unique texture process which enables the mesh to be both strong yet dissolve quickly. The TOTAL MELTDOWN PVA range is produced using the highest grade of PVA, totally environmentally friendly and leaving no residue around the bait.

With the mimicry pattern the line's profile is totally absorbed into its surroundings and cloaked from the vision of any targeted fish. This can only be achieved by mixing four natural shades and colours and by applying them to the line in a totally random manner, therefore fusing the natural light spectrum and eliminating the outline or presence, of an outside edge. The evolution of the new mimicry camo range has begun taking you to the 3rd dimension. To cover every fishing situation we have developed 3 different blends of mimicry 3d camo mainline, all of them with excellent breaking strength, sinking and reduced stretch

VISUAL XP

For completing the fishermen who need to see their line out of the water but to also have the line's profile dispersing as soon as it submerges

NEW INTERCEPTOR MIMICRY

Low stretch and a smoothness like never before, the Mimicry 3D Camo monofilament goes long range!

The Mimicry 3D Camo concept has started a new era in carp fishing monofilaments, after the first and very successful introduction on 2014 we have been working non-stop looking for new applications of this unique concept, the natural evolution has been the addition of two new colour combinations on a totally different material, very similar to our previous Interceptor: a truly long distance dedicated monofilament. The ultra-smooth surface combined with the reduced stretch allows every carp angler to hit extreme long casts.

- Low stretch
- Silk-smooth surface
- Low memory
- Sinking
- High abrasion resistance

Item No.	Length	BS (LB)	BS (KG)	Size	Colour

I do not like fishing long distances but sometimes you have to do it to get on the carp, especially on high pressured waters. And here you have the perfect weapon - so super smooth, that you will reach that extra metres! With its sinking qualities and the low stretch plus our very own genius 3D colour you will not spook the fish even with a hundred meter line out but you will detect every little movement on your hookbait. The high abrasion resistance is another extra to play the fish on long distances safely right into your landing net.

Bastian Reetz

SALVATORE PERRONE

XLNT HP

Improved version of our glorious and famous XLNT. Thanks to a new extrusion process and new Co-polymer (Twin build Co-polymer) we have increased the knot strength and reduced the memory, making the XLNT HP the perfect allround carp monofilament with amazing casting performance and perfect camouflage thanks to the new 4 tones camo pattern.

- Sinking
- Controlled Stretch
- Twin build Co-polymer
- 4 tone camo pattern
- High abrasion resistance

RIVER SPECIAL MONO

All the latest technologies have been used to produce the RIVER SPECIAL MONO, the first monofilament in the market dedicated to this particular environment. Using an innovative extrusion process and different co-polymer (Twin build Co-polymer) combined together, we built this monofilament with a controlled stretch which helps fight strong river carp at short distance avoiding hook pull. The surface has been treated in two different steps to be extremely smooth and to obtain an unrivaled abrasion resistance. Thanks to these heavy duty usage properties the RIVER SPECIAL MONO is the perfect monofilament for any difficult situation when you have to deal with dangerous obstacles and big carps. The exclusive clear-green two tone camo color used make this monofilament almost impossible to find for the carp, but at the same time it's clearly visible out of the water, allowing the angler to keep total control of the direction of the fish during the fight.

- Superb abrasion resistance
- Sinking
- Controlled Stretch
- Twin build Co-polymer
- Clear and green camo
- Heavy duty monofilament

BULLDOZER SNAG LEADER

The strongest snag and shock leader available. High density Co-polymer combined with a special outer treatment provides the BULLDOZER SNAG LEADER with the best abrasion resistance and the fastest sinking ratio available, all combined with an incredibly smooth surface which allows to tie perfect knots even at bigger diameters. Special attention has been given to the color : we have combined black and green in mat finish to avoid any possible light reflection on the rigs area.

- Fast Sinking
- Supreme abrasion resistance
- Easy knot treatment
- No reflection color
- Green & black camo

INTERCEPTOR FLUORO CARBON COATED TAPERED LEADERS

The ultimate solution for easy and effective long casting. We have used a softer version of the Co-Polymers used in the Interceptor Long Distance combined with a coating process that uses 100% Fluoro Carbon. This makes this tapered leader virtually invisible in the water, and with the same sinking ratio and abrasion resistance of the lines made using Fluoro Carbon. The conical shape makes it possible to tie perfect and compact knots, which don't create any problem or friction when extreme casting is needed. They are packed in a wide diameter spool, which contains 4 conical sections of 12m each divided by a small sticker indicating exactly where to cut.

- Reduced stretch
- Easy to knot
- Virtually invisible in water
- High abrasion resistance
- 4 conical section of 12m each per spool

Item No.	Length	BS (LB)	Pcs	Colour
47216	12m	12-32lbs	4x12m	Clear
47217	12m	15-40lbs	4x12m	Clear
47218	12m	18-50lbs	4x12m	Clear

SPODDING TAPERED LEADERS

Conical shaped leaders made for super heavy-duty usage. They are made using medium/soft Co-Polymer in order to make spoddling more easy and comfortable, also the length has been reduced to 10m in order to have the main line flowing out from the reel as soon as possible. 4 sections of 10m each (connected) spooled in a wide diameter spool with marker sticker for accurate cutting of the sections.

- Low memory
- Medium stretch
- Black colour
- Easy to knot

Item No.	Length	BS (LB)	Pcs	Colour
47219	10m	12-40lbs	4x10m	Black
47220	10m	15-50lbs	4x10m	Black

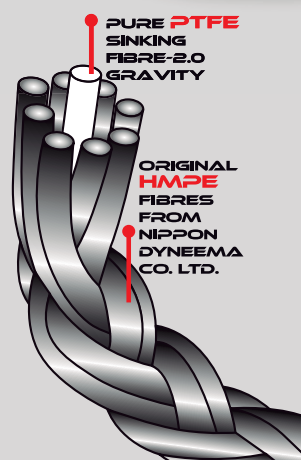

NEW MIMICRY JUNGLE BRAIDED LINE

It took more than one year to close the development and to fine tune the braided version of our world famous Mimicry 3D Camo line concept, but we did it!

This high-end braided mainline will amaze you with its performance, thanks to the ultra-tight woven structure it features an incredible smoothness. This, combined with the special lubricant coating process used provide a very homogeneous and tight braid that makes wind knots just a bad memory. Available in 400m and 1200m spools the Mimicry Jungle braided line is the ultimate solution to fish long and extreme range both for casting or dropping your rigs from the boat at extreme distance. The specific 8 strands structure of this braid combined with the outer coating treatment also increases significantly the abrasion resistance making it suitable to fish areas with dangerous snags. The combination of the high density fibres, the tight woven structure and the outer treatment makes this braided line heavy almost like a normal monofilament, providing a neutral to slow sinking ratio.

- Eight strand braid
- Outer lubricant coating process
- Ultra smooth surface
- Neutral-slow sinking ratio
- High abrasion resistance
- Mimicry Jungle pattern with shades of dark green and brown
- Easy to cast, no wind knots

Item No.	Length	BS (LB)	Sink rate	Colour
50101	400m	30lbs	Neutral slow	Jungle
50102	400m	40lbs	Neutral slow	Jungle
50104	1200m	30lbs	Neutral slow	Jungle
50105	1200m	40lbs	Neutral slow	Jungle

MARKER BRAID

High visibility braided line specially designed for marker floats and sounder leads. Thin and strong, the surface has a special high-flow treatment to help reaching the maximum distance. 200 meter spool with color mark to immediately recognize the casting distance and the water depth when using a marker float. We have used a new system extremely easy to understand and to "read" the line.

From 0m to 100m the braid is marked with 50cm sections in green and yellow.

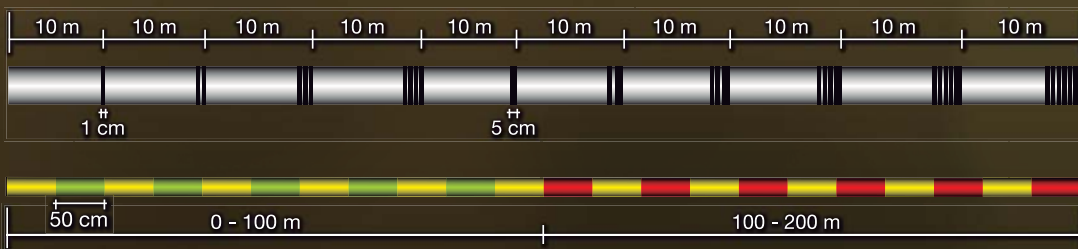

From 100m to 200m the braid is marked with 50cm sections in red and yellow.

Every 10 meters are marked with a short section in black that gives right away the indication of the distance.

- High flow surface for maximum distance
- No memory – No stretch
- 50cm colored sections
- Distinctive marks every 10 meters

Item No.	Length	BS (LB)	Size	Colour
48430	200m	20lbs	0.19mm	Multi

SPOD BRAID

Heavy duty floating braid, specifically designed for spodding. We have used the same marking system for each 10 meter section to help casting distance accuracy and understanding. We recommend to use the Spod Braid together with our Spodding Tapered Leaders for maximum performance.

- High visibility color
- Floating
- 10m distance mark
- Smooth surface for maximum distance

NEW XC1

This hook is slightly off set with curved in turned point and 13 degree down turned eye. A truly great pattern which can be used with most presentations. But comes in to its own when using soft flexible hook link materials. The off-set point combined with the down turned eye, helps guarantee a quick but perfect rotation of the hook. Maximising your chances of a hook up.

- CC83 High grade Japanese carbon-steel
- Off set point
- Curved point
- 13 Degree down turned eye

Item No.	Model	Size	Pcs
49587	Barbed	#1	10pcs
49588	Barbed	#2	10pcs
49589	Barbed	#4	10pcs
49590	Barbed	#6	10pcs
49591	Barbed	#8	10pcs

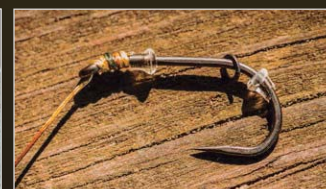

NEW XC2

An all-time classic pattern, one of the most popular and effective hooks ever. If you were only allowed to choose one hook to fish with, than we strongly suggest the XC2. Long Shank, straight point and down turned eye make it a great choice and so versatile for many presentations. Whether it's a pop-up, bottom bait, balanced bait or snowman. Popular for blow back rigs the options are endless, a perfect bottom jaw hook-up every time.

- CC83 High grade Japanese carbon-steel
- Long shank
- Straight point
- 25 degree down turned eye

Item No.	Model	Size	Pcs
49592	Barbed	#1	10pcs
49593	Barbed	#2	10pcs
49594	Barbed	#4	10pcs
49595	Barbed	#6	10pcs
49596	Barbed	#8	10pcs
49597	Barbless	#4	10pcs
49598	Barbless	#6	10pcs
49599	Barbless	#8	10pcs

This hook is my first choice for many of my rigs. The super-strong XC2, with its CC83 high grade Japanese carbon-steel wire, gives me total confidence whatever the situation. It's versatile, too, and it's my first choice for my blow back rigs. I've used most of the sizes and I've found that the straight point and 25-degree downturned down eye help give the XC2 fantastic hooking efficiency. Definitely one of my go-to hooks when really big fish are the target.

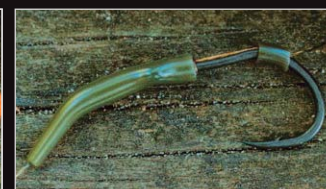

Tony Smeets

NEW XC3

Wide gape, in turned point, medium length shank with a straight eye, this is a truly multipurpose hook, mostly used by our Prologic team members for Fluorocarbon/Mono presentations when using stiff rigs and D rigs. This design has also proven to be a really good performer, when used in super supple rigs in conjunction with our Line Aligner sleeves.

- CC83 High grade Japanese carbon-steel
- Wide gape
- Short shank
- Curved point
- Straight eye

Item No.	Model	Size	Pcs
49600	Barbed	#1	10pcs
49601	Barbed	#2	10pcs
49602	Barbed	#4	10pcs
49603	Barbed	#6	10pcs
49604	Barbed	#8	10pcs

If I could advice one hook to other anglers it would be the XC3 for sure. Why? Cause you can play every fish for ages without losing it. It's strong as a horse. Great for fishing close to snags or in very weedy areas. It's so reliable. And for a bit more aggressive hooking you can use our aligners on top of it but just straight out the package is already more than good enough. I would never leave home for some fishing without the XC3 hooks. Topnotch!

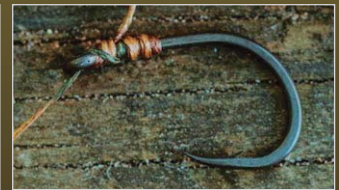

Felix van der Marel

NEW XC5

Ultra strong hook, in turned point, wide gape and short shank with down turned eye. Perfect for any kind of bottom or balanced presentation, especially when fishing extreme situation like snag fishing or long range fishing with small baits, the XC5 provide an excellent hook up.

- CC83 High grade Japanese carbon-steel
- Wide Gape
- Short Shank
- 15 degree down turned eye
- Curved point

Item No.	Model	Size	Pcs
49605	Barbed	#1	10pcs
49606	Barbed	#2	10pcs
49607	Barbed	#4	10pcs
49608	Barbed	#6	10pcs

Most of my fishing takes place on rivers and heavily fished waters and high quality equipment is the only option. The XC5 hook is an excellent choice for such conditions. It's a hook with a good port width and neck length ratio that holds fish great during the fight. The XC5 Hook is sharp and light, which greatly contributes to the realization of the bite. I usually use it in combination with a short V2 fluorocarbon trace and for rigs with "Super Skin" I combine it with a shrink tube or line aligner sleeve. On waters that are full of grass or snags this hook is my first choice.

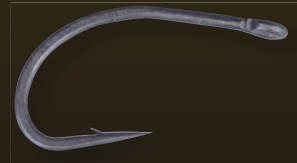

Mihovil Vudrag

NEW XC7

The hook shank has been slightly shortened which aids strength and the eye is now down turned by 3 degrees which dramatically increases the rotation/flip speed. The perfect hook hold and increased hook-ups to the bottom jaw will increase dramatically.

- CC83 High grade Japanese carbon-steel wire
- 3 degree down turned eye
- Medium length shank and straight point

Item No.	Model	Size	Pcs
49609	Barbed	#1	10pcs
49610	Barbed	#2	10pcs
49611	Barbed	#4	10pcs
49612	Barbed	#6	10pcs
49613	Barbed	#8	10pcs
49614	Barbed	#10	10pcs

49616	Barbless	#6	10pcs
49617	Barbless	#8	10pcs
49618	Barbless	#10	10pcs

The XC7 has to be my first choice of hook every time, it's a pattern you can just about take anywhere! Its ultra-long straight harden point aids for a very quick penetration, and every single curve has been taken into careful consideration. The XC7 has been designed to turn/flip quicker than any other pattern, increasing your chances of hook ups every time. My first choice weather fishing in weed choked waters, snag fishing or just waiting it out for the big gals in open water. Confidence in pack.

Richard Johnson

NEW XC8

Purely dedicated to using stiff hook link materials. A 20 degree out turned eye makes it a great choice for stiff rigs, chods and zig rigs. A wide gape means the ultra-Sharp straight point will have no problem grabbing hold on the next bite.

- CC83 High grade Japanese carbon-steel wire
- Wide gape
- Straight point
- 20 degree out-turned eye

49626	Barbless	#8	10pcs
49627	Barbless	#10	10pcs

NEW VIPER ULTRA SOFT

As clearly mentioned in the name, this is the softer hooklink braid in our range, made using 8 strands of HMPE mixed with high-density PL fibres to create the most supple and smooth hooklink in our range. All the fibres used feature a higher density than the water so the VIPER ULTRA SOFT can sink and lay down on the bottom perfectly, providing the perfect presentation of your hookbait. The perfect solution for strong but discrete presentations.

- Sinking
- Two tone green camo
- Ultra supple and soft
- Perfect for high pressured waters

Item No.	Length	Strength	Colour	Sink rate
49999	15m	15lbs	Two tone camo	Sinking
50000	15m	25lbs	Two tone camo	Sinking
50083	15m	35lbs	Two tone camo	Sinking

NEW VIPER 3S

High density fibres braided together with a special PE fibre which has been treated with a special anti-friction treatment. This process provided to the VIPER 3S hooklink braid creates a faster sinking ratio and very good abrasion resistance. Being not too soft the VIPER 3S is the perfect solution to fish with long rigs or in every situation where you need discrete presentation that can handle snags and debris on the lake bed.

- Fast sinking
- High abrasion resistance
- Three tone green camo
- Soft and smooth

Item No.	Length	Strength	Colour	Sink rate
50084	15m	15lbs	Three tone green	Fast sink
50085	15m	20lbs	Three tone green	Fast sink
50086	15m	30lbs	Three tone green	Fast sink
50087	15m	40lbs	Three tone green	Fast sink

NEW SUPER SNAKE FS

Extreme braid for extreme situations, the SUPER SNAKE FS features Aramid and PTFE fibres. These two fibres are then braided together to create an ultra-abrasion resistant braid. Thanks to the high density of the fibres used this braid sinks 15% faster than nylon monofilament and the matt finish colour provides the best camouflage possible with zero light refraction of the water. Ultimate abrasion resistance

- Fast sinking
- Semi soft
- Smooth surface
- Matt surface / no light refraction
- Solid green camo

Item No.	Length	Strength	Colour	Sink rate
50088	15m	15lbs	Solid green camo	Fast sink
50089	15m	25lbs	Solid green camo	Fast sink
50090	15m	35lbs	Solid green camo	Fast sink
50091	15m	45lbs	Solid green camo	Fast sink

NEW PRO CHOD MONO

Clear and super stiff, it can be manipulated to any shape you want, this bristle filament features a very good abrasion resistance and a very smooth surface that makes easy creation of the most advanced Chod or hinged stiff rig.

- Extreme memory
- Easy to Knot
- Chod / hinged stiff rig dedicated
- High abrasion resistance

Item No.	Length	Strength	Size	Colour
49991	25m	20lbs	0.45mm	Clear
49992	25m	25lbs	0.49mm	Clear
49993	25m	30lbs	0.53mm	Clear
49994	25m	35lbs	0.57mm	Clear

I've used many different types of stiff filaments in the past, but what sets the new Pro Chod Mono apart is its incredible memory retention. Using it in conjunction with a supple hinge rig I've found that, once I've steamed the Pro Chod material into a curve, even casting out a rig with a PVA bag attached won't straighten it, so I know I'm fishing the perfect presentation. With its high abrasion resistance, smooth surface for easy tying, and that amazing memory retention, the Pro Chod Mono has everything I need for a perfect rig.

Tony Smeets

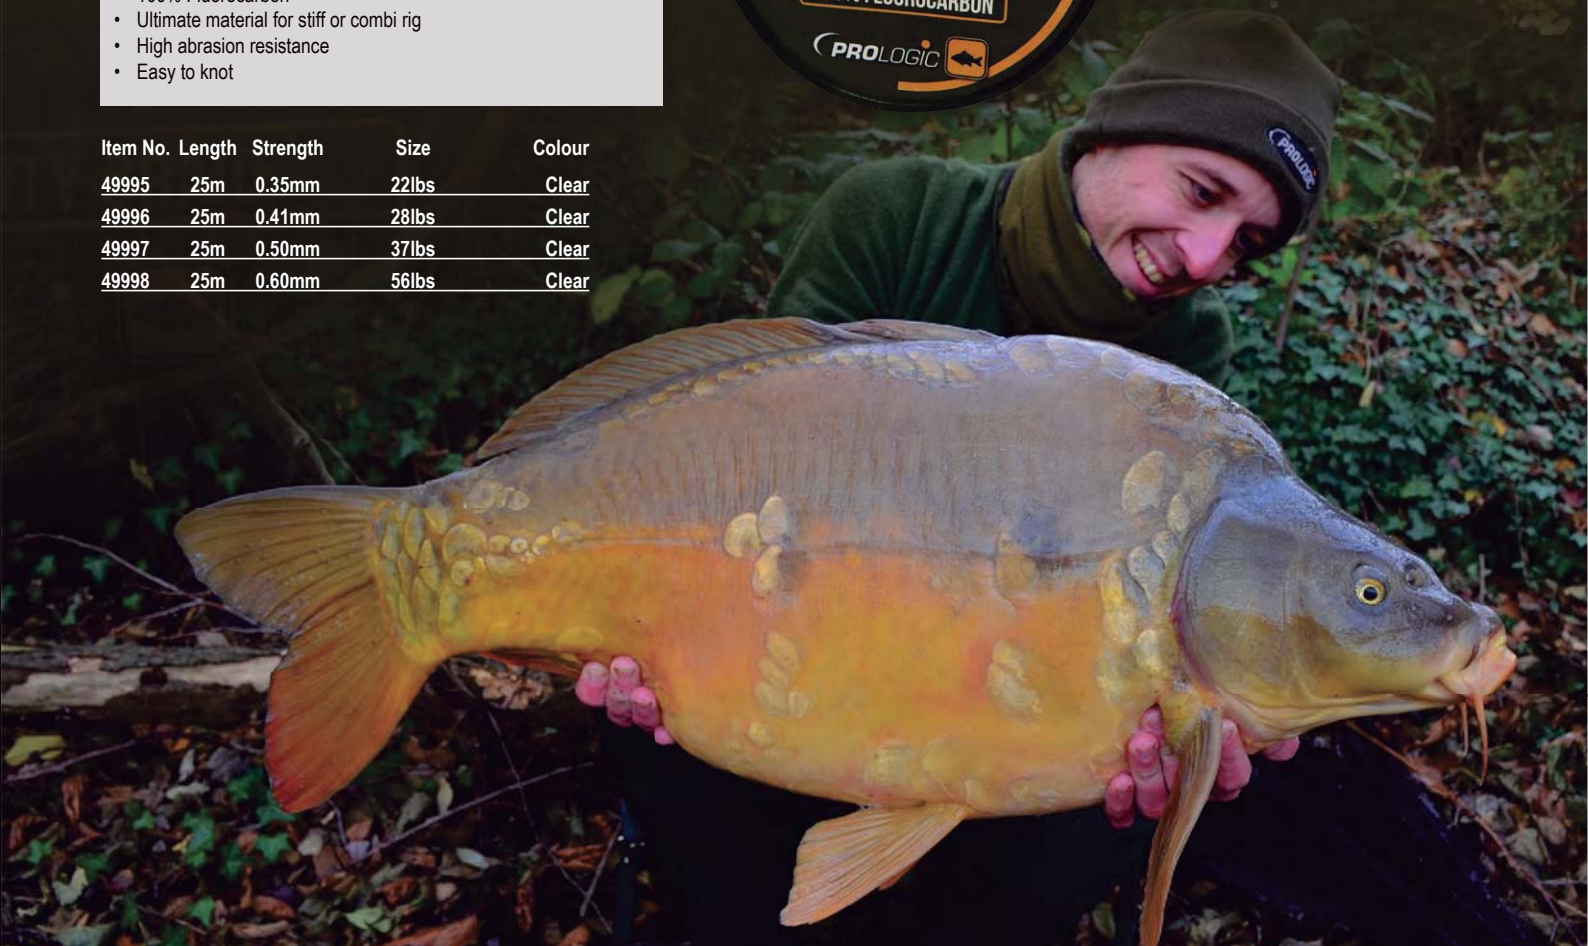

NEW SPECTRUM Z FLUOROCARBON

Improved version of our well known Spectrum Fluorocarbon. We have slightly revised the "recipe" to make this 100% Fluorocarbon filament easier to knot and more abrasion resistant. If you need to use the Spectrum Fluorocarbon for combi or stiff rigs we suggest to use friction on the line with your fingers to warm it up and then firmly pull, it will then stay straight right away.

- 100% Fluorocarbon
- Ultimate material for stiff or combi rig
- High abrasion resistance
- Easy to knot

Item No.	Length	Strength	Size	Colour
49995	25m	0.35mm	22lbs	Clear
49996	25m	0.41mm	28lbs	Clear
49997	25m	0.50mm	37lbs	Clear
49998	25m	0.60mm	56lbs	Clear

HOOKLINK MONO MIMICRY MIRAGE XP

Also available in the range is the Mirage Hook Link. This is light in colour, ideal for any kind of water and super supple and easy to use. Low memory makes it perfect for any kind of stiff or combi rig.

Item No.	Length	BS (LB)	BS (KG)	Size	Colour
48463	40m	20lbs	9.00kg	0.370mm	Camo
48464	40m	25lbs	11.00kg	0.405mm	Camo
48465	35m	30lbs	13.30kg	0.459mm	Camo
48466	30m	35lbs	15.50kg	0.499mm	Camo

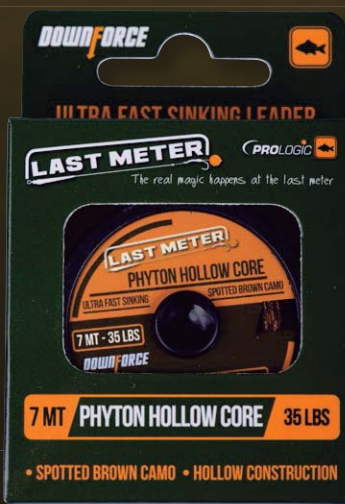

NEW PHYTON HOLLOW CORE

Ultra soft hollow leader, it can be spliced as a normal leadcore and it sinks fast as a stone. This is the best leader material available for ultra suspicious carp. Thanks to the hollow core it lays down on the bottom following the profile of every single small lump or bottom debris. Being so soft makes this leader material ideal for medium range fishing.

- Hollow body leader material
- Easy to splice
- High abrasion resistance
- Spotted brown camo
- It adapts to the profile of the bottom

Item No.	Length	Strength	Colour	Sink rate
50098	7m	35lbs	Spottet brown	Ultra Fast
50099	7m	45lbs	Spottet brown	Ultra Fast

TOMISLAV SESTAK

ENRICO PARMEGGIANI

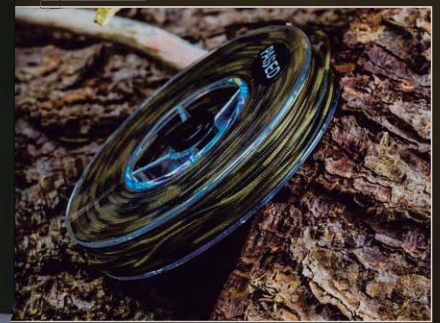

Bait presentation is one of the most important things in fishing. For many years now, I have used my own version of the running rig system, where a lead core is the main part. I have tried a variety of types, but so far I haven't been completely satisfied. Not until I started using the Python metalcore. Its biggest advantage is that it is extremely durable. It is highly abrasion resistant due to its knitted wire construction, and it doesn't crack up. Its quality, ease of use, durability and reliability are its greatest qualities and I would recommend it to anyone. The Python Metalcore is responsible for many of my catches on challenging and demanding venues

Mihovil Vudrag

NEW PHYTON METAL CORE

Environmental friendly lead-free leadcore, the PHYTON METAL CORE offer the same sinking performance of a traditional leadcore, but thanks to the pure Tin used it remains softer and easier to work. The perfectly braided woven outer material is made using lower density structure that allows strong and easily spliced loops.

- Lead free leadcore
- Two tone green camo
- PE woven outer material
- Easy to splice

Item No.	Length	Strength	Colour	Sink rate
50095	7m	35lbs	Two tone green	Fast sink
50096	7m	45lbs	Two tone green	Fast sink
50097	25m	45lbs	Two tone green	Fast sink

During my fishing-life one rig is always in the rigwallet. The combi-rig. Short or long. With a wide gape hook or a longshank. It doesn't matter. It's a allround winner. And with the Reptilian coated hooklink from Prologic you can make the best combi-rigs you need on every venue. It's so tough, sinks like a brick, great rather you use a knot or loop at your swivel and fits in good with the bottom where you are fishing depending from the colour you choose. In other words. Reptilian has it all. A great no-nonsense product.

Tony Smeets

NEW REPTILIAN COATED

High density PE fibre with a semi-stiff coating. The REPTILIAN COATED is a very good solution for the most advanced combi rig, once the coating is removed you will find an extremely smooth and supple braid inside that will allow infinite presentation solutions. Slow sinking, the coating is also a big advantage when you need to cast your rig to extreme distances, helping to reduce dramatically any risk of tangles.

- Semi-stiff coating
- Ultra soft PE inner braid
- Transparent coating
- Slow sinking
- Two tone brown camo

Item No.	Length	Strength	Colour	Sink rate
50092	15m	15lbs	Two tone brown	Slow sink
50093	15m	25lbs	Two tone brown	Slow sink
50094	15m	35lbs	Two tone brown	Slow sink

LAST METER!

FIRST CONTACT

NEW LAST METER COMPONENTS

Because the real magic happens at the last meter.

We have been working hard over the last two years to set up a new and comprehensive range of terminal tackle able to cope with the high technical specifications needed from every modern carp angler. The rigs used in carp fishing have evolved dramatically during the last few years, so we have been fine tuning each product down to the smallest detail to reach our target. We have used mostly TPU material, which is the best Eco-friendly plastic that can be used for this kind of products, reducing the usage of traditional PVC to very few items.

Even the packaging has been studied to be totally user friendly: most of the boxes can be used straight in your tackle box, and thanks to the special sticker that provide product information and image on the front and on the top it will be easy to recognize the product you are looking for in any moment, than each box can be re-used in many ways to store other small accessories.

SAFETY LEADCLIP & TAILRUBBER

A safe lead clip system for use with swivel leads

- Designed to release the lead should it become snagged
- For use with size 8 swivel
- The swivel can be locked and fixed with the swivel pin

Pcs in pack: 10
Item No. 49886

DISTANCE LEADCLIP & TAILRUBBER

A safe lead clip system for use with heavy leads and designed for distance fishing

- Designed to release the lead should it become snagged
- For use with size 8 swivel
- The metal arm reduces twist, releases easier and is stronger for bigger leads

Pcs in pack: 10
Item No. 49887

TOTAL SAFE LEADCLIP & TAILRUBBER

A safest lead clip system for use with soft/hollow leaders. Not for use with stiff leaders like lead core and fluorocarbon

- For snag fishing or any situation where soft leaders are used
- For use with size 8 swivel
- The best lead system for fish safety

Pcs in pack: 10
Item No. 49888

HEAVY DUTY LONG LEADCLIP W/PINS & TAILRUBBER

A safe lead clip system for use with extremely heavy leads ideal for big river fishing

- Designed to release the lead should it become snagged
- For use with size 8 swivel
- The metal arm reduces twist, releases easier and is stronger for bigger leads

Pcs in pack: 10
Item No. 49889

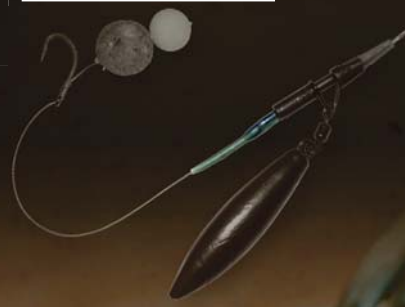

ANTI TANGLE RIG SLEEVES

Rig sleeve designed to protect the knot and force the rig away from the lead to reduce tangles

- Pushes the rig away from the lead without impairing the performance of the rig
- For use with size 8 swivel
- The metal arm reduces twist, releases easier and is stronger for bigger leads
- Slim design for better presentation
- Parallel swivel chamber reduces damage from quick links

Pcs in pack: 20

49890	3cm
49891	6cm

LINE ALIGNER SLEEVES

Semi rigid shaped sleeves to improve mechanics of your hook and rigs

- Protect knots
- Produce a neat and protected hook presentation
- Improve significantly the hook set
- Thread your hooklink through the sleeve
- Slide it over the eye of the hook
- Length can be adjusted by trimming sections of the wide end

Pcs in pack: 20

49892	M
49893	L

TAIL RUBBERS

Reduces tangles and secure the lead on lead clips

- Universal tail rubber for lead clips, reduces tangles and secures the lead

Pcs in pack: 15

49894	Normal
49895	Long

MICRO RIG SLEEVES

Short micro rubber rig sleeve

- Protecting knots
- Covering quickchange clips
- Produces a neat protected rig

Pcs in pack: 15

49896	Mini
--------------	-------------

MULTI BEAD

Rubber shock absorbing bead

- For use on running rigs, chod rigs and helicopter rigs

Pcs in pack: 15

Item No. 49897

GRIPPER BEADS

Rubber shock absorbing bead

- Universal bead for use on running rigs, chod rigs and helicopter rigs

Pcs in pack: 24

49898	Standard
49899	Small

BUFFER BEADS

Rubber shock absorbing bead/sleeve

- For use on running rigs, chod rigs and helicopter rigs

Pcs in pack: 15

49900	Standard
49901	Distance

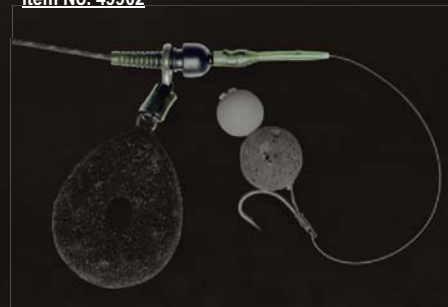

MULTI PURPOSE RIG KIT

A universal lead system designed for semi fixed or running lead rigs

- No tangles
- Large bore lead ring ensure the lead is dropped safely should the line break
- Easily changed from running to fixed without untying

Pcs in pack: 3

Item No. 49902

SEMI FIXED RIG BUFFER & RING

Reduces tangles and secure the lead on lead clips. Essential components to create your own solution for a fixed or running rig

- Good solution for medium and long range presentation
- Fit all size 8 swivel in the market
- Click the ring over the buffer for a fixed presentation
- Can be used with any leader material or anti tangle tube

Pcs in pack: 15
Item No. 49903

HELICOPTER RIG KIT

A complete anti tangle Helicopter rig kit

- No tangles
- Perfect for distance casting
- Lead drop off system utilising hole in sleeve
- Can be used with anti tangle tube, soft leaders or lead core

Pcs in pack: 3
Item No. 49904

HELICOPTER/CHOD RIG BUFFER

A buffer bead designed for all types of helicopter rig including chod rigs

- Designed with tapered tail to protect the line when fighting fish
- Lead drop off system utilising hole in sleeve

Pcs in pack: 15
Item No. 49905

ULTRAGRIP BEADS

A grip bead for use on Chod rigs, helicopter rigs and run rigs as a shock bead

- Designed to grip the leader material to form a stop or buffer for the rig

Pcs in pack: 20
Item No. 49906

CHOD BUFFER

A two part buffer bead designed for chod rigs

- Can be used for fixed chods on soft core and lead core leaders or running chods with monofilament

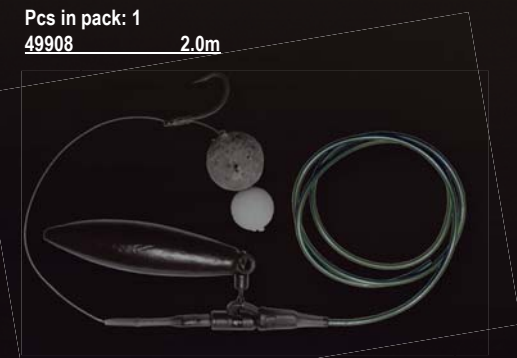

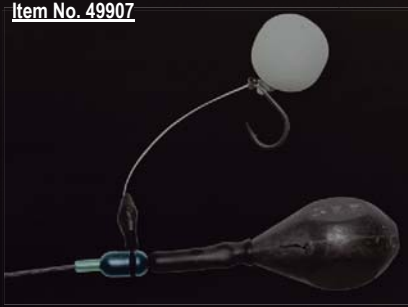

Pcs in pack: 15
Item No. 49907

ANTI TANGLE TUBE

- 0.5mm bore tubing to reduce tangle
- Tubing to protect the line, the fish and reduce tangles
- A good alternative to leaders
- Can be used with all types of rigs

Pcs in pack: 1
49908 2.0m

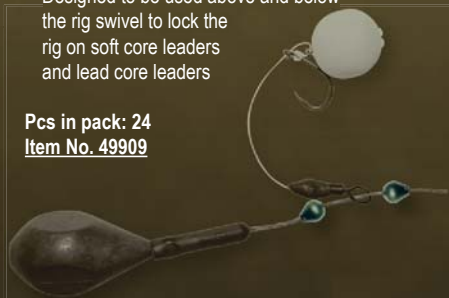

DROP BEADS

- Universal bead for use on running rigs, chod rigs and helicopter rigs
- Tear drop design to reduce friction and help with swivel rotation
- Designed to be used above and below the rig swivel to lock the rig on soft core leaders and lead core leaders

Pcs in pack: 24
Item No. 49909

SILICON RIG TUBE ASSORTMENT

5 cm sections of 1 and 2 mm bore silicon rig tubing

- For rig applications like trapping hairs, line aligning and kickers for rig swivels or quick links

Pcs in pack: 20
49910 1mm & 2mm 5cm

SILICON QUICK LINK SLEEVES Ø3MM

- Designed for covering quick links and swivels
- Cut to required length and slide over quick link or swivel
- Reduces tangles

Pcs in pack: 20
Item No. 49911

SHRINK TUBE ASSORTMENT

- Designed for protecting rig knots
- Perfect for line aligner, Whitty pool rig, other bent hook rigs and a multitude of rig applications
- Can improve the mechanics of your rig with damaging the fish.

Pcs in pack: 20
49912 M Ø1.5&2mm
49913 L Ø2.5&3mm

BAIT BAND ASSORTMENT

- Assorted bait bands for hookbaits
- Also included a bait protector disc for use with soft baits

Pcs in pack: 30
Item No. 49914

HOOK SHANK BEADS

- Designed for use in conjunction with rig rings or mini swivels to stop the ring on the shank of the hook
- Aid presentation on blow back

Pcs in pack: 30
Item No. 49915

BACK LEAD CLASSIC KIT

- Designed to safely attach back leads to the main line
- Fine tune the release of the lead by cutting the length of the return on the clip and the length of the silicon sleeve
- Back leads help to keep line away from patrolling fish and reduce tangles with other lines

Pcs in pack: 6
Item No. 49916

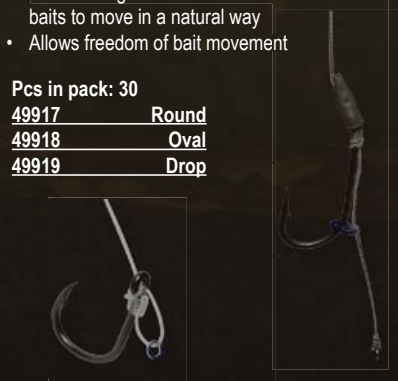

STEEL RING ASSORTMENT

- Anti glare matt finish
- Designed for connecting hair rigs, blow back rigs and D rigs
- Fine tune rig mechanics and allow baits to move in a natural way
- Allows freedom of bait movement

Pcs in pack: 30

49917	Round
49918	Oval
49919	Drop

RIG CONNECTORS

- Anti glare matt finish
- Designed with smooth edges to safely connect rig parts together
- Welded joints for strength
- Fine tune rig, perfect for combi rigs
- Also used for PVA bag fishing in conjunction with a safety clip

Pcs in pack: 30

49920	Oval
49921	Round
49922	Ultra-Slim

MULTI CLIP LINK

- Designed for quick change leads and rigs
- Anti glare matt finish
- Extremely strong design
- Use to quick change rig or lead

Pcs in pack: 15
Item No. 49923

SPEED LINK

- Designed for quick change leads, rigs and heavy applications such as spod and marker work
- Anti glare matt finish
- Extremely strong design
- Use to quick change rig, lead marker or spod work

Pcs in pack: 15
Item No. 49924

SWIVEL SZ8

- Standard rig swivel sz 8
- Designed to fit all Prologic lead clips and beads
- Designed to work in conjunction with the multi and speed clips
- Matt anti glare finish

Pcs in pack: 15
Item No. 49925

SWIVEL SZ12

- Standard rig swivel sz 12
- Designed to used to improve rig mechanics as a bait swivel
- Can be used to join combi rigs
- Matt anti glare finish

DOWNFORCE

TUNGSTEN RIG COMPONENTS

**DOWNFORCE TUNGSTEN
ULTRAGRIP BEADS**

A grip bead for use on Chod rigs, helicopter rigs and run rigs as a shock bead

- Designed to grip the leader material to form a stop or buffer for the rig

Pcs in pack: 12
Item No. 49934

**DOWNFORCE TUNGSTEN
CHOD DROP BEAD**

A two part buffer bead designed for chod rigs

- Can be used for fixed chods on soft core and lead core leaders or running chods with monofilament

Pcs in pack: 10
Item No. 49935

**DOWNFORCE TUNGSTEN
ANTI TANGLE TUBE**

- 0.5mm bore tubing to reduce tangle
- Tubing to protect the line, the fish and reduce tangles
- A good alternative to leaders
- Can be used with all types of rigs

Pcs in pack: 2
49936 0.60mm 1m
49937 0.80mm 1m

DOWNFORCE TUNGSTEN ANTI TANGLE RIG SLEEVES

Rig sleeve designed to protect the knot and force the rig away from the lead to reduce tangles

- Pushes the rig away from the lead without impairing the performance of the rig
- For use with size 8 swivel
- The metal arm reduces twist, releases easier and is stronger for bigger leads
- Slim design for better presentation
- Parallel swivel chamber reduces damage from quick links

Pcs in pack: 12

49938 5cm

DOWNFORCE TUNGSTEN MICRO RIG SLEEVES

Short micro rubber rig sleeve

- Protecting knots
- Covering quickchange clips
- Produces a neat protected rig

Pcs in pack: 12

Item No. 49939

DOWNFORCE TUNGSTEN DROP RIG SINKERS

Made from heavy tungsten, designed to easily slide onto your hook link or main line and ensure everything is pinned down to the lake bed, keeping your hook length out of the carp's way. Not only will these help with sinking your mainline they can also be used for fixing the top bead when fishing the naked chod. Simply slide the sinker on to your line and a wide bore tapered bead will softly grip it, forming the perfect but safe stop.

- High density Tungsten
- Natural no spook colour
- Smooth rounded edges
- Available in 2 sizes

Pcs in pack: 10-15

49940 Standard 15pcs

49941 Mega 10pcs

DOWNFORCE TUNGSTEN PUTTY KIT

Pcs in pack: 3x10

Item No. 49942

DOWNFORCE DROP BEAD

Rubber shock absorbing bead

- Universal bead for use on running rigs, chod rigs and helicopter rigs
- Tear drop design to reduce friction and help with swivel rotation
- Designed to be used above and below the rig swivel to lock the rig on soft core leaders and lead core leaders

Pcs in pack: 12

Item No. 49943

AUDAX BACK LEAD

Thanks to this very unique design it is possible to connect and remove this flying back lead to the mainline in a blink of an eye. The diagonal cut and the inner hole have different sizes in order to provide perfect sliding of the back lead on the mainline while casting and to avoid any accidental loss of the weight. Without a doubt the ultimate flying back lead !

Pcs in pack: 3x8g

Item No. 47355

NEW LAST METER FLOATING BITS & TABS

A full range of EVA foams in different shapes, colour and density to meet the need of every carp angler. The foam tablets are supplied in a two colour assortment each pack and they are all made using high-density EVA foam. Totally different foam has been used for the twin colour balls, the tubes and the dumbbells. In this case we have used a low density foam that provide a higher buoyancy thanks to the better ratio between volume and weight but also they can soak and hold attractive liquids much more and for longer time compared to the traditional ones.

FOAM TUBES ASSORTMENT

- 6 Different Colours of Foam Tubes dia 15mm length 55mm
- Perfect for balancing or popping up baits
- Can be cut to any length as desired
- Ideal for Zig fishing

- Can be used for Zig Rig fishing
- Trim to any shape you desire

Pcs in pack: 2
49967 Yellow & Black
49968 Orange & Yellow
49969 Red & White

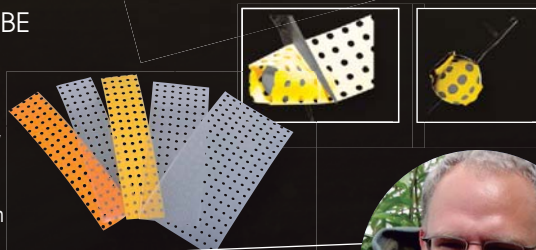

BAIT PROTECTOR SHRINKING TUBE

Full range of bait protector shrinking tube to preserve your bait from nuisance fish attack and from the terrible damages that crayfish can create to your hookbait. Available in a variety of sizes they can be used for baits from 12mm up to 32mm.

Another important addition to this range are the two high visibility version in Hi-Viz Yellow and Hi-Viz Orange, in some extreme situations our baits can be reduced to a very small particle, even with the Protector Shrinking Tube, in these situations is extremely important to have at least some good visual attraction that can trigger the curiosity of the carps and eventually let them taste what is left of your bait. Especially during the night this can make the difference, avoiding you to spend a full night on the bank with no bait left in your rig.

Pcs in pack: 10
49970 14mm Transparent
49971 22mm Transparent
49972 32mm Transparent
49973 14mm Hi-Vis Yellow
49974 22mm Hi-Vis Yellow
49975 32mm Hi-Vis Yellow
49976 14mm Hi-Vis Orange
49977 22mm Hi-Vis Orange
49978 32mm Hi-Vis Orange

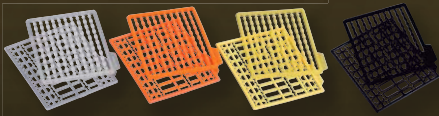

There is nothing worse than reeling your rod in only to find out that there is no bait on anymore as this means, that you had at least for a few hours no chance to catch a fish! Especially on waters with a lot of crayfish, small catfish or goby it is sometimes very difficult to fish with boilies with confidence. On some continental venues even the hardest bait will last only half an hour on your hair. And here comes our new protector shrinktube to its own: It protects your bait after shrinking it in or over cooking water very safely but through the little holes nothing of the attraction of your boilie is lost. And as you might expect from Prologic, we have that little extra: Our very own and unique fluo shrink tube colours give you the chance to fish high visual bottom baits (or even popups) armoured with the right protection until a huge crayfish eater will find you bait...

Bastian Reetz

NEW LAST METER TOOLS

Full range of re-designed accessories to make your rig making more simple and effective, all the new baiting needle have a truly ergonomic handle that provide the best grip ever seen on a bait needle. ARTBAIT (ARTIFICIAL BAITS)

State of the art artificial carp baits (floating). Thanks to our great connection with our sister company Savage Gear we have created the most advanced artificial carp bait ever seen on the market. All the different shapes have been carefully designed with the most advanced 3D design techniques to highlight even the smaller details of these natural food imitations. All the details are enhanced even more with the colour combinations that feature twin injection coloured silicone, glitters and shrimp powder and flavour. These wide range artificial carp baits cover all the different requirements for the modern carp angler: They are available in two flavour versions: Crustacean, which has shrimp powder injected and Crustacean flavour. Second option is the Natural, which has no flavour and can be dipped in any attractors of your choice.

WATER WOLF UW1.0 UNDERWATER VIDEO CAMERA

- Underwater camera specifically designed for fishing
- Use for trolling, casting, float or bottom rig carp fishing
- Anti-wobbling retrieve
- 4 hours recording
- Tested down to 100 meters
- Uniquely designed and engineered in Denmark
- Protected by 3 different patents

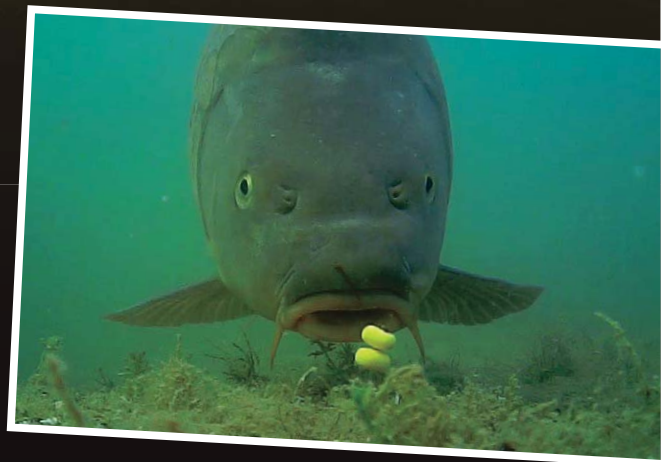

Item no. 48879

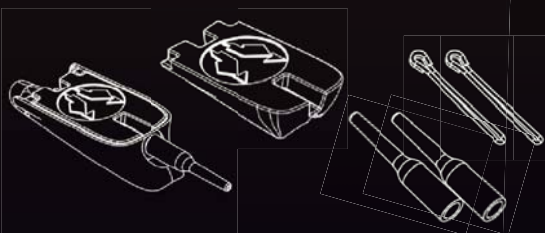

WATER WOLF UW BOTTOM CARP FISHING KIT

The patented drop off lead system ensures fish safety, and gives you a chance to retrieve the camera even in case of the mainline breaking on the cast.

- Easy click on, allows you to change camera in seconds.
- Attach it to your fishing line and cast out, or use a bait-boat.
- Control the amount of tension needed before the lead drops off, and the camera floats.
- Casts well and falls straight through the water, and lands on the lead every time.

Item No.	Description
