SAVAGE GEAR

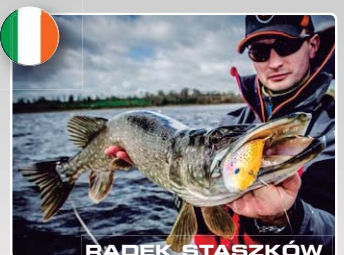

10 years of passion and innovation

For the ultimate predatory fish, only the ultimate gear will do. And the guys at Savage Gear have committed themselves to providing the serious and ambitious predatory fisherman with just that - the ultimate lures, rods, reels and accessories for the big beasts out there. This quest has fueled the Savage Gear team to develop the most complete, thoroughly tested, versatile, and effective range of predatory fishing gear ever.

SAVAGE GEAR CONSULTANTS

2016

10 years with Savage Gear!

11 years ago we took the first steps to make our dream come true! Since then we have worked to build the Savage Gear brand by constantly lifting the bar for our products and ideas! It has been an incredible journey and we are proud to present to you our product range for 2016! Everyone at Savage Gear just loves fishing for predator fish and we put our heart and soul into developing gear that will give YOU an edge, in the pursuit of your dream fish!

The backbone of Savage Gear is you – our dear customer – and we take pride in listening to your input and ideas. We value all the reports and pictures you share with us on our Facebook pages – it is highly appreciated! Thank you all for the amazing support!

An incredible amount of hours, sweat and blood has gone into creating our lures and you will find they have an action and catch rate far above average! Rest assured we are on a mission to keep raising the bar repeatedly. We have such fun doing what we do – we simply cannot stop!

With our cutting edge tooling, materials and innovation, Savage Gear has become one of the major trendsetters and innovators in modern lure fishing. We are fueled by the passion of lure fishing, which is shared by the 1000's of followers and Savage Gear users around the world!

For the love of fishing, we salute you!
See you out there!

CEYMAR

- Multi-disc, oiled felt drag system
- Quick-Set anti-reverse roller bearing
- Precision machine cut brass pinion gear
- Corrosion-resistant graphite body
- Rigid, forged aluminum, black anodized handle design
- Light weight, EVA handle knobs for comfort
- Precision Elliptical Gearing system
- Machined aluminum, 2-tone anodized spool
- Heavy duty, solid aluminum bail wire
- RESII: Computer balanced Rotor Equalizing System
- Narrow Blade Body Design for reduced fatigue

TRIO SRS HIGH SPEED

- SRS solid reel stem
- DFD: Dual Force Drag system
- Aluminum spool
- Multi-disc, Japanese oiled felt drag system
- Precision Elliptical Gearing system
- Rigid precision 2 tone alum spool
- Quick-Set anti-reverse roller bearing
- Machine cut aluminum handle design
- Precision machine cut brass pinion gear
- CRC: Corrosion-Resistant Coating process
- HDGII: Corrosion-resistant, High Density gearing
- Crossover aluminum and graphite hybrid body & rotor design
- Ball shaped handle knob on 55/65/80
- Hydro Block water tight drag seal
- With EVA handle knob

Model	Bearings	Gear Ratio	Drag Force	Line Capacity	Weight
30S	9+1	6.2:1 / 73cm	7.0kg	200m 0.20mm	295g

OKUMA KOMODO

- Quick-Set anti-reverse roller bearing
- 7-position Velocity Control System
- Multi-disc Carbonite drag system
- CRC: Corrosion Resistant Coating process
- Heavy duty, aluminum gearing and shafts
- A6061-T6 machined aluminum, anodized spool
- Micro-click drag star for precise drag settings
- 9BB+1RB stainless steel bearing drive system
- Precision Japanese ABEC-5 spool bearings
- ALC: Rigid diecast aluminum frame and side plates
- Durable EVA handle knobs for comfort
- Easy change left side plate access port
- Zirconium line guide insertions for use with braided line
- Ergonomic carbon fiber handle design for reduced weight
- Lightweight at only 6.5 oz.
- Left Hand retrieve

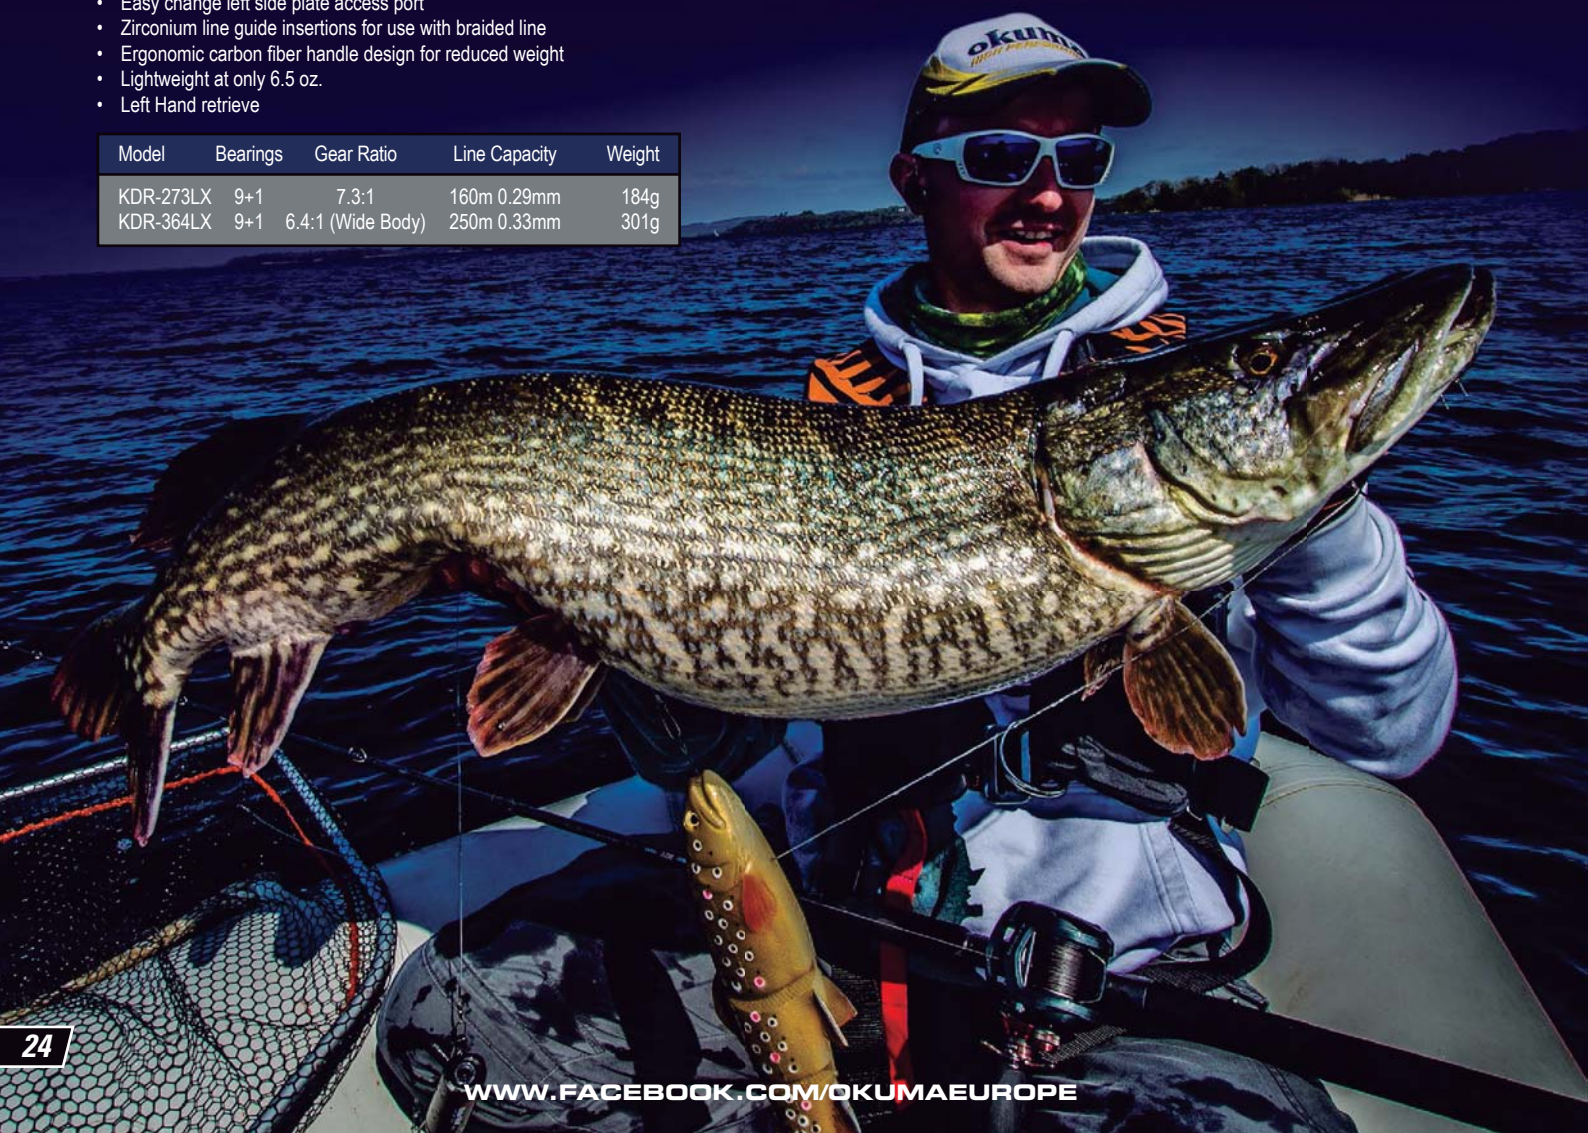

OKUMA CERROS

- ALC: Rigid diecast aluminum frame
- Multi-disc composite drag system
- Micro-click drag star for precise drag settings
- External adjustable magnetic cast control system
- 10-point adjustment on cast control for precise settings
- Quick-Set anti-reverse roller bearing
- Corrosion resistant graphite side plates
- Side plate access port for quick spool changes
- Light weight and comfortable EVA handle knobs
- Available in both right and left hand retrieve
- A6061-T6 machined aluminum, anodized V-shaped spool

Model	Bearings	Gear Ratio	Line Capacity	Weight

HELIOS AIR (LEFT HAND)

- Extremely light magnesium frame and sideplates
- A6061-T6 machined aluminum, anodized spool
- Heavy duty, aluminum gears and shafts
- Multi-disc Carbonite drag system
- This tournament reel was designed for freshwater use
- Micro-click carbon fiber drag star for precise drag settings
- 8BB+1RB stainless steel bearing drive system
- Precision Japanese ABEC-5 spool bearings
- Quick-Set anti-reverse roller bearing
- 7-position Velocity Control system under palm cover
- Ergonomic swept carbon fiber handle design
- Easy change palm side plate access port
- Lightweight at only 5.7 oz.
- Zirconium line guide insertions for use with braided line
- Available in both right and left hand retrieve
- Helios Air reels are backed by a 3-year limited warranty program

Model	Bearings	Gear Ratio	Line Capacity	Weight
HM-273LX	8+1	7.3:1	160m 0.29mm	160g

OKUMA CITRIX

- Graphite side plates
- 7 stainless steel ball bearings
- 1 one way roller bearing
- Left Hand retrieve
- Machine cut lightweight aluminium spool
- External adjustable magnetic centrifugal cast control system
- Aluminium "Low Profile" body construction

Model	Bearings	Gear Ratio	Line Capacity	Weight
CI-273VLX (LH)	7+1	7.3:1	250m 0.33mm	312g
CI-364LX	7+1	6.4:1	250m 0.33mm	238g

SALINA III

- AlumiLite: Aluminum body construction
- Precision Elliptical Gearing system
- Quick-Set anti-reverse bearing
- Machined aluminum, anodized spool
- DFD: Precision Dual Force Drag system
- Hydro Block water tight drag seal
- Super strong High Density gearing
- Heavy duty aluminum handle

RAW II

- AlumiLite: Aluminum body and sideplate construction
- Aluminum rotor construction for strength and precision
- Precision elliptical gearing system
- Quick-set anti-reverse bearing
- Machined aluminum, 2-tone anodized spool
- CRC: Corrosion Resistant Coating process
- DFD: Dual Force Drag system with carbon washers
- Hydro Block water-tight drag seal
- Super strong High Density Gearing
- Carbon fiber handle system on 30/40 sizes
- Heavy duty aluminum handle on 55/65/80 sizes

CLARION LINECOUNTER

- Level wind
- Ratcheting drag star
- Machine alum spool
- Multi disc carbonite drag system
- Speed lock pinion gear system
- Silent retrieve spool engaging mechanism
- TSC: tension spool control system for trolling
- Mechanical line counter function measures in feet
- MSS: Mechanical stabilizing system for increasing durability

COLDWATER

- Multi-disc Carbonite drag system
- Machined aluminum, anodized spool
- Durable machine cut brass gearing
- Satinless steel reinforcing side plate rings
- Aluminum power handle with T-style knob
- Self lubricating gear system, all models
- Stainless steel level wind line guide system
- Mechanical line counter function measures in feet
- Lightweight corrosion resistant frame and side plates

COLDWATER LINECOUNTER

- ALC: Rigid diecast aluminum frame and handle side plate
- Multi-disc, Carbonite drag system
- Balanced aluminum handle arm with Ergo Grip handle knobs
- 3BB + 1RB Stainless steel ball bearings
- Quick-Set anti-reverse roller bearing
- Oversized machine cut brass XL drive and pinion gears
- Machined aluminum, two tone anodized spool
- Mechanical line counter function measures in feet
- CVT: Clear View Technology anti-fogging line counter
- Aluminum ratcheting drag star for precision drag settings
- Automatic trip, spool engaging mechanism
- 5.4:1 gear ratio available in both left and right hand retrieve
- DLX represent left hand crank line counter models
- Coldwater low profile line counter reels are backed by a 1-year limited warranty

MAGDA AIR LINECOUNTER

- Ergo grip handle knob
- Dual anti reverse system
- Light weight line guide easy for powerful line guiding
- Lightweight corrosion resistant frame
- Self lubricating gear system
- Rigid aluminum handle arm
- Multi-disc Carbonite drag system
- Ratcheting drag star for precise drag setting
- Durable stainless steel main and pinion gear system
- Integrated recessed reel foot design for low profile rod fit
- MSS: Mechanical stabilizing system for increasing durability
- One piece frame & side plate design for increased durability
- Ratcheting & static cast control knob for precise setting & security

ANDROS II SPEED SERIES

- Gear Ratios: 6.4:1 High / 3.8:1 Low
- 4-pcs ABEC-5 rated Japanese ball bearings
- 2-pcs HPB ball bearings on drive shaft
- External adjustable cast control system
- Ratchet drag lever for precise drag settings
- Ergo grip handle knob with anodized aluminum handle arm
- One screw right sideplate take down for easy internal access
- 17-4 grade stainless steel helical cut gearing
- Maximum drag at Full with complete freespool is 24 lbs
- Maximum drag at Strike with complete freespool is 15 lbs
- Carbonite drag system with Cal's drag grease
- Integrated recessed reel foot design for low profile rod fit

MAKAIRA SE

- Open Spool Bearings with TSI-301 oil.
- All non-spool bearings feature FULL grease pack for maximum longevity.
- Special Edition Gun Smoke and Black anodizing.
- Frames have been machined out for increased clearance between the spool and cross bars.
- 6061-T6 machined aluminum frame with forged side plates
- 17-4 grade stainless steel gearing
- Helical cut gears for increased torque, smoothness and improved gear meshing
- 4-pcs ABEC-5 precision Sapporo stainless steel ball bearings
- Patented T-Bar handle with Easy Roll graphite insertion on all models
- Heavy duty stainless steel ratcheting clicker system
- Type-II gold anodized frame, side plates, spool, drag lever and handle

CORTEZ ROD SERIES

A superb series of rods for modern sea fishing with both lures and Rigs/bait. Strong put-in 1/3 handle section and progressive, relatively tipped 2/3 blank section, with perfectly balanced action to play big fish, like Cod, coalfish, halibut and big turbot

- Light weight, high modulus carbon fiber blanks
- Stainless steel high rise guide frames with SIC rings
- Deluxe Reel seats and EVA handles
- Travel rod supplied in deluxe transport case

NEW CORTEZ

- Graphite side plate & frame
- Anodized aluminum spool engaged lever
- Compact frame versus spool design
- External magnetic case control
- Ergo grip handle knob
- Machine alum spool
- Critical drain ports
- 303 grade SUS gears

OKUMA MAKAIRA BIG GAME

- 6061-T6 Machined aluminium frame with forged side plates
- Stainless steel, helical cut main and pinion gears
- Custom designed thrust bearing: Alleviates side load on heavy drag settings
- CRC: Corrosion Resistant Coating process
- Patented spool pin system for use with braided or mono lines
- Carbonite Dual Force drag system featuring Cal's drag grease
- 4 Class-5 ABEC stainless steel ball bearings
- Size80 (6 Class-5 ABEC stainless steel ball bearings)
- Double dog, proprietary silent antireverse system
- Ratcheting drag lever and drag cam for precise drag setting
- Patented T-Bar handle with Easy Roll graphite insertion on all models

- Custom abalone decoration above fore grip
- Custom leather wrapped foregrip on IGFA Stand Up rods

Length	Sections	Line Weight	Weight	Transport Length
5'1"	2	80lbs	1065g	135cm
5'8"	2	50lbs	1055g	135cm
5'8"	2	30lbs	1012g	135cm

4Play Swim & Jerk:

Real S-curve swimming, can be fished slowly, from 0-3', great for trolling and spinning all year.

4Play Liplure:

Erratic flashing and rolling action, fish with spinstops or steady faster retrieve. Dives 3-8' - great all year round.

4Play Swimbait:

Very Large real S-curve swimming action when fished in lower eye - slim erratic S-curve when fished in top eye. Great for steady retrieve and trolling year round.

4Play Lowrider:

Very erratic and vibrating action, can be fished very slow and with spinstops, dives 5-15' depending on main line diameter. Super all year round.

Hook #2/0

On spin stop the lure performs a vivid shaking and swimming on the drop, very often triggering a brutal attack from following fish. The unique movement pattern, we call VMS - Vivid Movement System.

SAVAGE GEAR

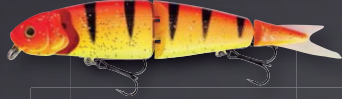

4PLAY HERRING

A true innovation and a very effective and easily fished lure! There are 4 types in the range; a suspending Swim & Jerk lure with a big S-curve action, a suspending Liplure with an erratic flashing action, a floating Lowrider lure with a super erratic rolling action and a new giant Swimbait version with an Xtra large S-curve action.

All 4Play lures are supplied with premium quality Japanese carbon steel trebles and extra strong forged split rings.

SAVAGE GEAR

25cm
Hooks
2 x #2/0

17cm
Hook #1

SAVAGE GEAR 3D HARD EEL

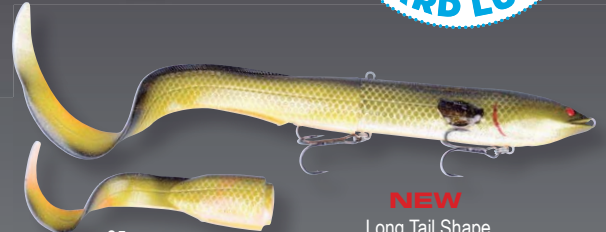

The long tail, will make the lure rock enticing from side to side and leaving a great eely snaky tail after it – When the tail is screwed on tail down – the “up force” on the tail part – will push the head of the lure down – so it runs under the surface in more or less the same depth all the way in – Turn the tail Up, and “down force” on the tail – will force the head up – so the eel comes to the surface and runs right under the surface creating a create super wake effect! The short tail – turns the hard lure into a superb glider – with a great side to side glide – with slight tabs from the rod tip. The downturned tail – will create “up force” on the tail part – so the lure stays down in 2-4 feet all the way in – turn the tail up and the “down force” on the tail will force the lure to the surface straight away – with a super wide and breaking glide.

The big size, comes with innovative double magnets system to hold the front belly hook in position and enhance presentation and hook up rate. Both sizes have a back Spin – to enable back hook position to be able to mud drag the lure or fish it over grass or submerged weed – even on super shallow water. We offer spare tails and “custom” provocation tails – to complete the perfect Hard lure tail bait range!

- Runs from top to 6 feet
- 3D Scanned details
- Tournament trebles and Components
- Magnet hook holder
- Corkscrew tail mount
- Multiple riggings and run depths (Up force & down force)
- Slow sink

SAVAGE GEAR 3D BLEAK GLIDE SWIMMER

Based on a 3D Scan of a Bleak - one of the most important prey fish for many European freshwater predator fish. The Restricted V-joint in combination with the unique Body shape give the most enticing Glide swimming action! Big side to side swim on steady retrieve, superb side flash action on jerks! A Very easily fished lure on both spinning and bait caster set up. Great lure for any Predator fish - the erratic and side shifting action, tuned to perfection, will make even the wariest fish attack the lure again and again! Deadly for Pike, Perch, Bass and many other predator fish.

- Wide Glide swim on retrieve
- Super side to side action on Jerk
- Strong ABS body construction
- Restricted V-joint
- Semi Soft Tail
- Forged SS split rings
- Tournament Trebles

NEW SAVAGE GEAR TPE FAT VIBES

Soft Vibes is a Soft lipless crank bait, designed to have a superb vibration and flash on the retrieve and Yo-Yo and a great action on the drop, swimming towards bottom, with a subtle rock and flash away in very realistic escape pattern. The lure sends out vibration and flash that will pull the predator fish from distance and they will hit it hard on the drop or even straight retrieve – also great for vertical fishing! The TPE material (Temperature Elastomer) is a unique soft yet durable material, that feels and behaves very different in the water than a hard body lure. The fish bite and hold on as if it was a real baitfish – and the TPE material is very durable and will last for many, many bites.

(don't store TPE with PVC soft lures)

SAVAGE GEAR FAT VIBES

A super versatile Real Eel imitation loaded with innovative features! The design is simple yet very clever and will ensure you superb results on any predator that will go for an eel or lamprey! The 3D Scanned details will fool even the most varied predator fish and ensure your brutal attacks.

Fat Vibes are a lipless crank bait, designed to have a superb vibration and flash on the retrieve and Yo-Yo and a great action on the drop, swimming towards bottom, with a subtle rock and flash with a very realistic escape pattern. The lure sends out vibration and sound that will pull the predator fish from distance and they will hit it hard on the drop or even straight retrieve – also great for vertical fishing!

- Tournament trebles and Components
- VMS – Vivid Movement system on the drop
- Noisy and flashy
- Sinking

On spin stop the lure performs a vivid shaking and swimming on the drop, very often triggering a brutal attack from following fish. The unique movement pattern, we call VMS – Vivid Movement System.

NEW SAVAGE GEAR 3D HYBRID PIKE

A super realistic Baby Pike imitation loaded with innovative features! Unparalleled 3D Scanned details will fool even the most wary predator fish and ensure you brutal attacks. The Paddle tail will give the lure an incredible lively and rocking action with a clicking rattle chamber driving the predator fish crazy!

The Curl tail can be fished ultra-slow, leaving the front part of the lure, very steady and the tail with an enticing and provoking action. A deadly combination on wary and often cautious big Pike! When the tail is screwed on tail down – the “up force” on the tail part – will push the head of the lure down – so it runs under the surface in more or less the same depth all the way in – Turn the tail Up, and “down force” on the tail – will force the head up – so the eel comes to the surface and runs right under the surface creating a create super wake effect!

The innovative release rig, enables the rear hook to detach from the lure Body when a fish is hooked. The rig is mounted to a build in swivel – so the fish have a very hard time to roll on the lure and use the force to pull out the hooks. The clever system, also protects the soft part of the lure, from staying the Toothy zone!

SAVAGE GEAR

- We offer spare tails – to complete the perfect Hybrid Pike tail bait range!
- Runs from top to 6 feet
- 3D Scanned details
- Tournament trebles and Components

NEW SAVAGE GEAR 3D HYBRID PIKE (LOOSE BODY)

Spare tails – to complete the perfect Hybrid Pike tail bait range!
The Curl tail can be fished ultra-slow, leaving the front part of the lure, very steady and the tail with an enticing and provoking action. A deadly combination on vary and often cautious big Pike!

SAVAGE GEAR 3D LINE-THRU PIKE

The perfect Jack Pike Imitation based on a 3D scan of a real Jack Pike, with incredible details and movement – for those periods when the big mammas want small pike! Line thru system, where you place hooks either on back or Belly – the unique “fungus” build up on the tail, creates a subtle swimming action with lots of micro movement from the back and belly fins – Just like a real baby Pike!

02-Albino Pike **NEW**

SAVAGE GEAR 3D TROUT RATTLE SHAD

Combining 3D scanning and 3D modelling in the quest to produce the perfect lure in appearance and swimming action! By scanning real fish in combination with geometrical shapes, Savage Gear has been able to create lures that look and swim as close to the real thing as possible.

The 3D Trout Rattle Shad is the spitting image of a real trout – based on 3D scanning. Superb rocking and lively swimming action both on steady retrieve and on the drop – produces the perfect escape pattern, tricking even the most wary predator fish to attack.

- Integrated non-lead weight
- Big roll paddle tail
- Removable Glass/steel rattle in tail
- Tournament Quality hooks
- Superb for casting and trolling

2 models available, a Slow sink (SS) version with the line coming thru the mouth for shallow presentation and a moderate sink (MS) with line coming thru the forehead – to create a “stay” down swimming pattern – so you can fish the lure at depth all the way to the boat! Both sink rates have horizontal Balance on the drop!

SAVAGE GEAR 3D LINE-THRU TROUT

3D Trout Line Thru swim bait – made from a super detailed 3D scan of a Real Trout. The Innovative line thru Y-system that allows you to put the hooks either on the back or on the belly, depending on how you want to fish the lure. When the fish attacks the lure and gets hooked, the lure shoots up the line and away from the fish – so the fish cannot use the weight of the lure to throw the lure! The swimming action of the lure is as close to the real thing as you can imagine – it literally swims like a live trout and it can trick even the most clever pike to attack! 3 Sizes, 15cm, 20cm and 30cm SS & MS

- Y-Line Thru system – you can mount hooks on belly or back
- Superior 3D details
- Mesh reinforced joints
- Hook slot in the harness both belly and back

SAVAGE GEAR 3D CRAYFISH

Combining 3D scanning and 3D modelling in the quest to produce the perfect lure in appearance and swimming action! By scanning a real Crayfish and combining it with careful studies of the movement and escape pattern of the real thing, Savage Gear has been able to create a Crayfish lure that looks and swims as real as possible – irresistible to even the wariest predator fish! Air filled claws not only aid in natural underwater movement when the crayfish is rigged forward, but also give a defensive posture when the crayfish is fished on a stand up jig head. It will make micro movements, even at the tiniest movement and water current.

The Air filled head cavity makes the crayfish float so it can be fished on a weighted wheelies hook over heavy mats and lily pads and then paused in openings for a slow enticing fall into the strike zone. Just like the real thing! The exaggerated antennae and legs give more secondary action on the bait. Two legs face forward and two backwards for action on either a forward drag or tail first retrieve. Available in the hottest colours on the market and in two key fish-catching sizes. An advanced two chamber tool makes to-die-for twin colours possible Iodine, Salt and Crayfish Scent enriched soft PVC material!

Multiple rigging accessories, offered for perfect use targeting different species, techniques and venues! Stand up jig head, weedless offset hook, stealth spike rig, Drop shot, Carolina rig, free line, top water, etc.

- Air-filled Claws and head
- Ultra lively moving whiskers and legs
- Iodine, Salt and Crayfish Scent enriched
- Superb realistic gliding action
- Advanced 2 tone colours

SAVAGE GEAR 3D MANIC SHRIMP

Combining 3D scanning and 3D modelling in the quest to produce the perfect lure in appearance and swimming action! By scanning a real shrimp and combining it with careful studies of their movements and escape patterns, Savage Gear has been able to create a shrimp lure that looks and swims as real as possible – irresistible to even the wariest predator fish! The exaggerated cylindrical front legs will make the shrimp “walk” with the typical pulsating movement.

The antennae and rear legs add very realistic secondary action to the Lure. One or more pairs of front legs can be pulled off to change the action. Multiple rigging options, Jig head, drop shot, Carolina, Bombarda etc.

Superb for both Freshwater and saltwater species!

- Manic Walking legs action
- Ultra lively moving whiskers
- Iodine, Salt and Shrimp scent enriched

NEW SAVAGE GEAR CRAB STANDUP JIGHEAD

Stand up jig head for the 3D Crab, giving the perfect fall rate and action like a life peeler crab escaping – Strong short shank ultra-sharp jig hook – will enable you to land even strong predators!

NEW SAVAGE GEAR 3D MANIC CRAB

The 3D Manic Crab, a perfect scan of a peeler crab – incredible details! The Legs flutter and swim on the drop as the lure slides through the water – creating very lifelike micro movement that the fish simply cannot resist. A great lure for many salt water species and especially the fish many LRF anglers target – Superb for Seabass, Wrasse, snapper, bream etc.

Long Cast Design

NEW SAVAGE GEAR

PANIC PREY V2

Great Topwater lure, based on details from an anchovy! The open mouth gives great splashing and spitting action on walk the dog retrieve! The long arrow dynamic body, gives incredible casting distance and precision – the rear Y-treble hook folds up along the back on the cast and gives a very stable flight. Inside lazer paper gives superior, live like flash and the easy obtained wide gliding action makes this lure deadly on any top water style of fishing – Saltwater or freshwater. The best panicking prey fish imitation ever!

- Long distance
- Wide gliding splashing action
- Inside Lazer paper
- Noisy rattle
- Super hook up rate
- Ultra Sharp Savage Gear Trebles

SAVAGE GEAR POP PREY SALT

The Pop Prey lures have the most amazing popping and splashing action. Retrieve the lures whilst making pulls and pauses with the rod tip and the lures come to life with big pops and splashing action, attracting the predators from a distance and inducing aggressive strikes. All these lures are made with Japanese top quality components and hooks. The results during field-testing have shown superb results on Sea bass!

The larger version of the Pop Prey, superb casting distance – great Popping and splashing – tuned for the bigger saltwater predators – Sea bass, Bonito, smaller Tuna etc. great lure for saltwater game! Watch it all happen!!

- Integrated Long cast system
- Action: Popping splashing
- Top water!
- Saltwater Tournament trebles and components

NEW SAVAGE GEAR TPE MUDD MINNOW

SG TPE Mudd Minnow – superb top water action, made in the very durable and floating TPE material. Mounted with a 4X strong wide gape offset hook and supplied with the innovative TPE cone, that will slide over your knot and make the lure totally weed less! Brilliant lure for fishing heavy cover, lillys etc. but also in floating grass and weed.

(don't store TPE with PVC soft lures)

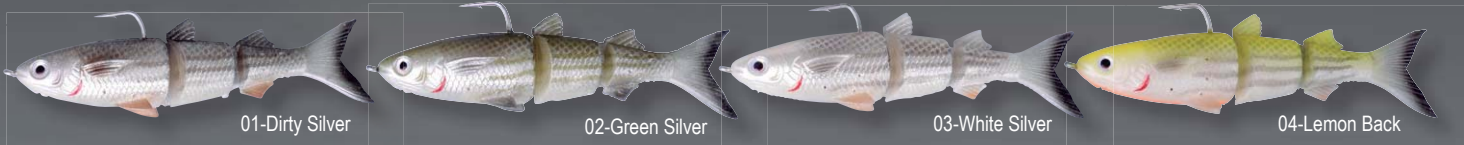

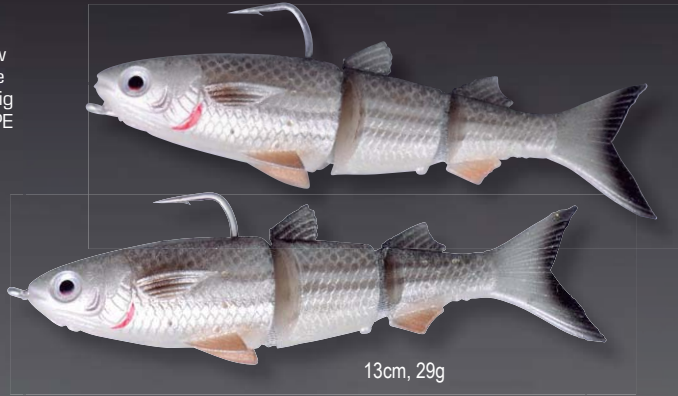

NEW SAVAGE GEAR 3D TPE MULLET

Based on a 3D scan of a real mullet. The ultra-realistic mullet lure, swims with a provoking S-Curve. 3D TPE mullet we designed for skinny water fishing (shallow water) the Slow sink version will run 1-2 feet under the surface and the wake version will come straight up to the surface, make a great big wake – just calling in the predator fish! The tough durable TPE material, with the reinforced joints, makes these lures very tough and durable even for toothy predators!

The exposed wide gape 4X hook, ensures great hook ratio.

- 3D Scanned details
- Super tough TPE material
- Real swimming action
- Exposed 4X Ultra sharp back hook
- Wake and Slow sink versions

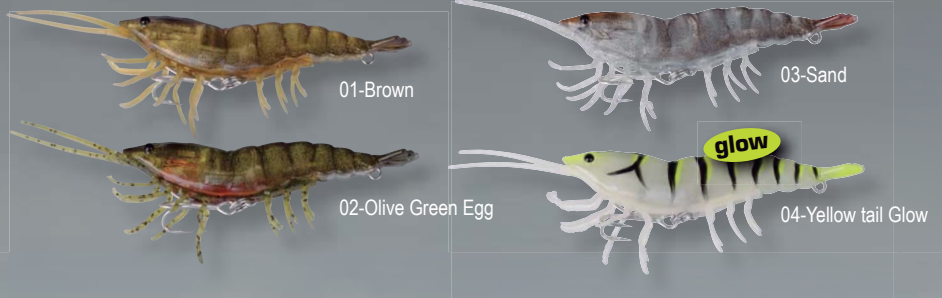

(don't store TPE with PVC soft lures)

NEW SAVAGE GEAR 3D HYBRID SHRIMP

Great Top water lure, based on the scan of a real Shrimp! The Shrimp swims forward to escapes backwards – we have designed the Hybrid shrimp to have the perfect backwards fleeing movement coming straight to the surface – with a popping and splashing sound. On the drop the lure will swim forward and sink with the TPE legs and whiskers moving like a life shrimp! The lure is built for long casting and will come straight to the surface on the retrieve – add twitches and the lure will pop and splash with the tail in the surface! The 4x treble hook, is nicely hidden – in a magnetic slot in the belly – for perfect hook up rate! Deadly on any top water style of fishing, where shrimp is on the menu! The best shrimp prey fish imitation ever!

- 3D Scanned details
- Top water popping action
- Real life movement on the drop
- Magnetic hook slot
- 4X Y-treble
- TPE legs and whiskers
- Also great for Popping cork

SAVAGE GEAR PSYCHO SPRAT

Long casting metal jigs that cut fast through the water and shoot out, away from the centerline on the drop when jigging. On fast retrieve, these unique lures have an enticing kicking action, and they will rotate quite slowly to the sides on spin stop - flashing and attracting the predators from a distance! The incredible details on these Sprat imitation lures are unparalleled. All lures are made with Japanese top quality components and treble hooks. Superb for just about any saltwater predator!

SAVAGE GEAR LB SANDEEL SLUGS

In our effort to develop a program for saltwater lure fishing, we designed a series of ultra realistic sandeel slugs that have a solid front body and a hollow tail section that makes the LB lure float. The solid front body, makes a perfect hook hold. The hollow body collapses when the fish engulfs it which ensures a better hookup rate. The lure can be fished on an offset hook, on a weedless rig tuned with weight to have any sink rate desired, or it can be fished cut off behind the eyes, on our sandeel jig heads, to make the most amazing darting action. The lure is also great for drop shot and vertical jigging. Brilliant details and swimming action.

SAVAGE GEAR 3D HERRING BIG SHAD

Combining 3D scanning and 3D modelling in the quest to produce the perfect lure in appearance and swimming action! By scanning real fish and combining it with geometrical shapes, Savage Gear has been able to create lures that look and swim as close to the real thing as possible. The 3D Herring Big Shad is a perfect imitation of the Atlantic herring: one the most important prey fish for Nordic big game species like Halibut, Giant cod and coalfish. Superb rocking and lively swimming action both on steady retrieve and on the drop – produces the perfect escape pattern, tricking even the most wary predator fish to attack. Perfect for jigging and trolling the biggest monsters down there!

- Durable Soft PVC body
- Super detailed lead alloy head
- Nylon Mesh reinforced tail bridge
- Big Fish Kevlar Stinger incl.
- 4X Strong Forged steel hooks

SAVAGE GEAR FINEZZE HD4 BRAID

HD4 Finezze braid is Woven from the highest quality PE (Polyethylene) fibres, with an especially designed Tight Pitch, that ensures a round lasting profile with a ridged surface and minimal torque. We have spent hours and hours, testing and finding the optimal digital controlled pitch formula, to ensure the longest possible casts and durability. The result is incredible – the best braided line for lure fishing imaginable! Perfect for spinning reels, to avoid wind knots and line twist.

SAVAGE GEAR 100% FLUOROCARBON

Developed from premium Japanese Fluoro Carbon with innovative extrusion technology! Savage Gear's Fluoro Carbon has smaller diameters and increased strength and offers incredible knot- and tensile strength. Moreover, it is an extremely soft line with low memory. Ideal for any fishing where superior lure- or bait presentation is needed in fresh- or salt water. Savage 100% Fluoro Carbon line is much less visible underwater than monofilament lines and virtually invisible to fish. 100% Fluoro Carbon is also UV resistant, chemical resistant, non-absorbent, high-density, and impervious to cold conditions.

100% Fluoro Carbon - 100% invisible - 100% Incredible!

Compact quality steel crimping plier, to make the perfect traces and stingers – with multiple cross bar jaws – for ultra-safe crimping.

SAVAGE GEAR SPLIT RING PLIER

Easy to use split ring plier – perfect for changing hooks on smaller and medium size lures!

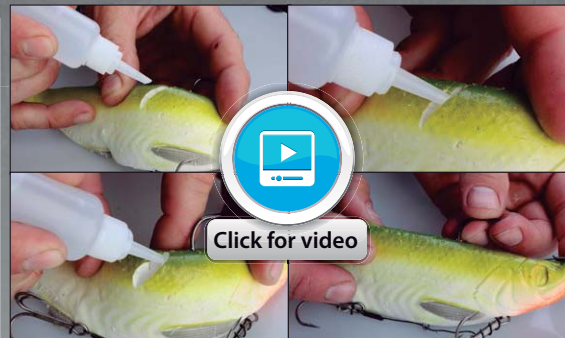

SAVAGE GEAR HOLD-IT SOFT LURE SUPERGLUE 8ML

A Super Glue formula giving great hold between metal and soft PVC. Use it to hold the soft lure perfectly on the jig hook! Apply a drop on the body holder of the shank, before you fully mount the soft lure all the way: locks the lure in place in just a few seconds. Keep lid on at all times to avoid evaporation. Best stored cool and out of direct sunlight.

SAVAGE GEAR FIX-IT SOFT LURE RESIN 20ML

A brilliant liquid that can mend and fix just about any cut or rip to your soft lure. Apply a few drops with the pipette tip of the bottle, and gently cover the surfaces you want to mend together. Let the resin sit and work for a good 20 minutes and the lure will be as good as new! Keep lid on at all times, to avoid evaporation. Best stored cool and out of direct sunlight.

SAVAGE GEAR DELUXE RIG ROLL

Unique EVA rig roll, perfect for superb storage of all types of treble hook specialist rigs. Will hold up to 25 rigs. Also comes complete with rig roll bag for treble protection.
